

PACIFIC INSTITUTE OF MEDICAL SCIENCES ,UMARDA ,UDAIPUR , RAJASTHAN
CLINICAL POSTINGS SCHEDULE OF SECOND PROFESSIONAL MBBS (BATCH 2020)

DATE		DAY		10 am to 1 pm			
Batches		A	B	C	D	E1 & E2	E2 & E1
01-03-2022	TUESDAY	IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure	IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure	CM 2.1 Describe the steps and perform clinico-socio-cultural and demographic assessment of the individual, family and community	OG5.1 Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	PE1.7 Perform Developmental assessment and interpret	CT1.5 Elicit, document and present an appropriate medical history that includes risk factor, contacts, symptoms including cough and fever CNS and other manifestations
02-03-2022	WEDNESDAY	IM1.11 Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its severity	SU3.3 Counsel patients and family/ friends for blood transfusion and blood donation.	CM 2.2 Describe the socio-cultural factors, family (types), its role in health and disease & demonstrate in a simulate	OG5.1 Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	PE2.2 Assessment of a child with failing to thrive including eliciting an appropriate history and examination	CT1.6 Demonstrate and perform a systematic examination that establishes the diagnosis based on the clinical presentation that includes a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c)
03-03-2022	THURSDAY	IM1.12 Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure	SU9.3 Communicate the results of surgical investigations and counsel the patient appropriately	CM 2.3 Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior	OG5.2 Determine maternal high risk factors and verify immunization status	PE2.5 Assessment of a child with short stature:Elicit history, perform examination, document and present	CT1.8 Generate a differential diagnosis based on the clinical history and evolution of the disease that prioritises the most likely diagnosis

04-03-2022	FRIDAY	IM1.13 Measure the blood pressure accurately, recognize and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade	SU10.3 Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.	CM 3.5 Describe the standards of housing and the effect of housing on health	OG5.2 Determine maternal high risk factors and verify immunization status	PE6.8 Respecting patient privacy and maintaining confidentiality while dealing with adolescence	CT1.9 Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest X ray PA view, Mantoux, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing
07-03-2022	MONDAY	IM1.14 Demonstrate and measure jugular venous distension	SU10.3 Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.	CM 20.3 Describe any event important to Health of the Community	OG6.1 Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests	PE6.9 Perform routine Adolescent Health check up including eliciting history, performing examination including SMR (Sexual Maturity	CT1.15 Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS)

08-03-2022	TuESDAY	IM1.15 Identify and describe the timing, pitch quality conduction and significance of precordial murmurs and their variations	SU10.4 Perform basic surgical Skills such as First aid including suturing and minor surgical procedures in simulated environment	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures	OG14.1 Enumerate and discuss the diameters of maternal pelvis and types	PE6.1 Define Adolescence and stages of adolescence	CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers
09-03-2022	WEDNESDAY	IM1.19 Enumerate the indications for and describe the findings of heart failure with the following conditions including: 2D echocardiography, brain natriuretic peptide, exercise testing, nuclear medicine testing and coronary angiogram	SU10.4 Perform basic surgical Skills such as First aid including suturing and minor surgical procedures in simulated environment	and life cycles of vectors o	OG6.1 Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy	PE7.5 Observe the correct technique of breast feeding and distinguish right from	CT2.8 Enter document and present a medical history that will differentiate the aetiologies of obstructive airway disease, severity and precipitants

<p>10-03-2022</p>	<p>THURSDAY</p>	<p>IM1.18 Perform and interpret a 12 lead ECG</p>	<p>SU11.3 Demonstrate maintenance of an airway in a mannequin or equivalent</p>	<p>CM 5.2 Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method</p>	<p>OG8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors</p>	<p>PE7.7 Perform breast examination and identify common problems during lactation such as retracted nipples, cracked nipples, breast engorgement , breast abscess</p>	<p>CT2.9 Perform a systematic examination that establishes the diagnosis and severity that includes measurement of respiratory rate, level of respiratory distress, effort tolerance, breath sounds, added sounds, identification of signs of consolidation pleural effusion and pneumothorax</p>
<p>11-03-2022</p>	<p>FRIDAY</p>	<p>IM1.22 Assist and demonstrate the proper technique in collecting specimen for blood culture</p>	<p>SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated environment</p>	<p>CM 5.4 Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment</p>	<p>OG8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors</p>	<p>PE8.4 Elicit history on the Complementary Feeding habits</p>	<p>CT2.10 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology</p>

14-03-2022	MONDAY	IM5.9 Elicit document and present a medical history that helps delineate the etiology of the current presentation and includes clinical presentation, risk factors, drug use, sexual history, vaccination history and family history	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan.	CM 10.5 Describe Universal Immunization Program	OG8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	PE:End Posting Examination	CT:End Posting Examination
15-03-2022	TUESDAY	IM5.12 Choose and interpret appropriate diagnostic tests including: CBC, bilirubin, function tests, Hepatitis serology and ascitic fluid bilirubin, function tests, Hepatitis serology and ascitic fluid examination in patient with liver diseases.	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan	CM 5.6 Integrated Child Development Services Scheme (ICDS) etc	OG8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	CT1.5 Elicit, document and present an appropriate medical history that includes risk factor, contacts, symptoms including cough and fever CNS and other manifestations	PE1.7 Perform Developmental assessment and interpret

16-03-2022	WEDNESDAY	<p>IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes nutritional status, mental status, jaundice, abdominal distension ascites, features of portosystemic hypertension and hepatic Encephalopathy</p>	<p>SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent</p>	<p>CM14.1, CM 14.2 Define and classify hospital waste & Describe various methods of treatment of hospital waste</p>	<p>OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy</p>	<p>CT1.6 Demonstrate and perform a systematic examination that establishes the diagnosis based on the clinical presentation that includes a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation</p>	<p>PE2.2 Assessment of a child with failing to thrive including eliciting an appropriate history and examination</p>
17-03-2022	THURSDAY	<p>IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes nutritional status, mental status, jaundice, abdominal distension ascites, features of portosystemic hypertension and hepatic Encephalopathy</p>	<p>SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease</p>	<p>CM 17.5 Describe health care delivery in India</p>	<p>OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy</p>	<p>CT1.8 Generate a differential diagnosis based on the clinical history and evolution of the disease that prioritises the most likely diagnosis</p>	<p>PE2.5 Assessment of a child with short stature:Elicit history, perform examination, document and present</p>

21-03-2022	MONDAY	IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	CM 17.5 Describe health care delivery in India	OG11.1 Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	CT1.9 Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest X ray PA view, Mantoux, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing	PE6.8 Respecting patient privacy and maintaining confidentiality while dealing with adolescence
22-03-2022	TUESDAY	IM5.15 Assist in the performance and interpret the findings of an ascitic fluid Analysis	SU27.4 Describe the types of gangrene and principles of amputation	CM 17.5 Describe health care delivery in India	OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	CT1.15 Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS)	PE6.9 Perform routine Adolescent Health check up including eliciting history, performing examination including SMR (Sexual Maturity Rating), growth assessments (using Growth charts) and systemic exam including thyroid and Breast exam and the HEADSS screening

23-03-2022	WEDNESDAY	IM6.7 Elicit document and present a medical history that helps delineate the etiology of the current presentation and includes risk factors for HIV, mode of infection, other sexually transmitted diseases, risks for opportunistic infections and nutritional status	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	CM10.5, CM 10.3 Describe Universal Immunization Program & Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices	OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers	PE6.1 Define Adolescence and stages of adolescence	
24-03-2022	THURSDAY	IM6.8 Generate a differential diagnosis and prioritize based on clinical features that suggest a specific etiology for the presenting symptom	SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias	CM 10.5, CM 10.3 Describe Universal Immunization Program & Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices	OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	CT2.8 Elicit document and present a medical history that will differentiate the aetiologies of obstructive airway disease, severity and precipitants	PE7.5 Observe the correct technique of breast feeding and distinguish right from wrong techniques	
25-03-2022	FRIDAY	IM6.10 Choose and interpret appropriate diagnostic	SU28.2 Demonstrate the correct technique to examine the patient with	CM 3.8 Describe the mode of action, application cycle of commonly used	OG12.4 Define, classify and describe the etiology, pathophysiology,	CT2.9 Perform a systematic	PE7.7 Perform breast examination and identify common problems	
28-03-2022	MONDAY	Term ending	Term ending	Term ending	Term ending	Term ending	Term ending	
Batches		B		c	D	E	A1 & A2	A2 & A1
29-03-2022	Tuesday	IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure	SU3.2 Observe blood transfusions.	CM 2.1 Describe the steps and perform clinico-socio-cultural and demographic	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE1.7 Perform Development	CT1.5 Elicit, document and present an appropriate medical	

30-03-2022	WEDNESDAY	IM1.11 Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its	SU3.3 Counsel patients and family/ friends for blood transfusion and blood	CM 2.2 Describe the socio-cultural factors, family (types), its role in health	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE2.2 Assessment of a child with	CT1.6 Demonstrate and perform a systematic examination that	
31-03-2022	THURSDAY	IM1.12 Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure	SU9.3 Communicate the results of surgical investigations and counsel the	CM 2.3 Describe and demonstrate in a simulated environment the	OG5.2 Determine maternal high risk factors and verify immunization status	PE2.5 Assessment of a child with	CT1.8 Generate a differential diagnosis based on the clinical	
01-04-2022	FRIDAY	IM1.13 Measure the blood pressure accurately, recognize and discuss alterations in blood pressure in	SU10.3 Observe common surgical procedures and assist in minor surgical	CM 3.5 Describe the standards of housing and the effect of housing on	OG5.2 Determine maternal high risk factors and verify immunization status	PE6.8 Respecting patient	CT1.9 Order and interpret diagnostic tests based on the clinical	
04-04-2022	MONDAY	IM1.14 Demonstrate and measure jugular venous distension	SU10.3 Observe common surgical procedures and assist in minor surgical	CM 20.3 Describe any event important to Health of the Community	OG6.1 Describe, discuss and demonstrate the clinical features of	PE6.9 Perform routine	CT1.15 Prescribe an appropriate antituberculosis regimen	
05-04-2022	TUESDAY	IM1.15 Identify and describe the timing, pitch, quality, conduction and significance of precordial murmurs and their variations	SU10.4 Perform basic surgical Skills such as First aid including suturing and	CM 3.7 Identify and describe the identifying features and life cycles of	OG14.1 Enumerate and discuss the diameters of maternal pelvis and types	PE7.5 Observe the correct	CT2.8 Elicit document and present a medical history that will	
06-04-2022	WEDNESDAY	IM1.19 Enumerate the indications for and describe the findings of heart failure with the following conditions	SU10.4 Perform basic surgical Skills such as First aid including suturing and	and life cycles of vectors o	OG6.1 Describe, discuss and demonstrate the clinical features of	PE7.7 Perform breast	CT2.9 Perform a systematic examination that establishes the	
07-04-2022	THURSDAY	IM1.18 Perform and interpret a 12 lead ECG	SU11.3 Demonstrate maintenance of an airway in a mannequin or	CM 5.2 Describe and demonstrate the correct method of performing a	OG8.1 Enumerate, describe and discuss the objectives of antenatal	PE7.7 Perform breast	CT2.9 Perform a systematic examination that establishes the	
08-04-2022	FRIDAY	IM1.22 Assist and demonstrate the proper technique in collecting specimen for blood culture	SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated	CM 5.4 Plan and recommend a suitable diet for the individuals	OG8.1 Enumerate, describe and discuss the objectives of antenatal	PE8.4 Elicit history on the Complement	CT2.10 Generate a differential diagnosis and prioritise based on	
11-04-2022	MONDAY	IM5.9 Elicit document and present a medical history that helps delineate the etiology of the current	SU18.3 Describe and demonstrate the clinical examination of surgical	CM 10.5 Describe Universal Immunization Program	OG8.2 Elicit document and present an obstetric history including menstrual	PE:End Posting Examination	CT:End Posting Examination	
12-04-2022	TUESDAY	IM5.12 Choose and interpret appropriate diagnostic tests including: CBC, bilirubin, function tests, Hepatitis	SU18.3 Describe and demonstrate the clinical examination of surgical	CM 5.6 Integrated Child Development Services	OG8.2 Elicit document and present an obstetric history including menstrual	CT1.5 Elicit, document and present	PE1.7 Perform Developmental assessment and	
13-04-2022	WEDNESDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU25.5 Demonstrate the correct technique to palpate the breast for breast	CM14.1, CM 14.2 Define and classify hospital waste &	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.6 Demonstrate and perform	PE2.2 Assessment of a child with failing to thrive including eliciting	
14-04-2022	THURSDAY	Amedkar jayanti						
15-04-2022	FRIDAY	IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG11.1 Describe the etiopathology, clinical features; diagnosis and	CT1.9 Order and interpret diagnostic	PE6.8 Respecting patient privacy and maintaining confidentiality while	
18-04-2022	MONDAY	IM5.15 Assist in the performance and interpret the findings of an ascitic fluid Analysis	SU27.4 Describe the types of gangrene and principles of amputation	CM 17.5 Describe health care delivery in India	OG12.1 Define, classify and describe the etiology and pathophysiology,	CT1.15 Prescribe an appropriate	PE6.9 Perform routine Adolescent Health check up including eliciting	
19-04-2022	TUESDAY	IM6.7 Elicit document and present a medical history that helps delineate the etiology of the current	SU27.6 Describe pathophysiology, clinical features, investigations and	CM10.5, CM 10.3 Describe	OG12.1 Define, classify and describe the etiology and pathophysiology,	CT1.16 Describe the appropriate	PE6.1 Define Adolescence and stages of adolescence	
20-04-2022	WEDNESDAY	IM6.8 Generate a differential diagnosis and prioritize based on clinical features that suggest a specific etiology for the presenting	SU28.2 Demonstrate the correct technique to examine the patient with	CM 10.5, CM 10.3 Describe Universal Immunization Program & Describe local	OG12.3 Define, classify and describe the etiology, pathophysiology,	CT2.8 Elicit document and present a	PE7.5 Observe the correct technique of breast feeding and	
21-04-2022	THURSDAY	IM6.10 Choose and interpret appropriate diagnostic	SU28.2 Demonstrate the correct technique to examine the patient with	CM 3.8 Describe the mode of action, application cycle of commonly used	OG12.4 Define, classify and describe the etiology, pathophysiology,	CT2.9 Perform a systematic	PE7.7 Perform breast examination and identify common problems	

22-04-2022	FRIDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.8 Generate a differential	PE2.5 Assessment of a child with short stature:Elicit history,
25-04-2022	MONDAY	Term ending	Term ending	Term ending	Term ending	Term ending	Term ending
Batches		C	D	E	A	B1 & B2	B2 & B1
26-04-2022	TUESDAY	IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure	SU3.2 Observe blood transfusions.	CM 2.1 Describe the steps and perform clinico-socio-cultural and demographic	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE1.7 Perform Development	CT1.5 Elicit, document and present an appropriate medical
27-04-2022	WEDNESDAY	IM1.11 Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its	SU3.3 Counsel patients and family/ friends for blood transfusion and blood	CM 2.2 Describe the socio-cultural factors, family (types), its role in health	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE2.2 Assessment of a child with	CT1.6 Demonstrate and perform a systematic examination that
28-04-2022	THURSDAY	IM1.12 Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure	SU9.3 Communicate the results of surgical investigations and counsel the	CM 2.3 Describe and demonstrate in a simulated environment the	OG5.2 Determine maternal high risk factors and verify immunization status	PE2.5 Assessment of a child with	CT1.8 Generate a differential diagnosis based on the clinical
29-04-2022	FRIDAY	IM1.13 Measure the blood pressure accurately, recognize and discuss alterations in blood pressure in	SU10.3 Observe common surgical procedures and assist in minor surgical	CM 3.5 Describe the standards of housing and the effect of housing on	OG5.2 Determine maternal high risk factors and verify immunization status	PE6.8 Respecting patient	CT1.9 Order and interpret diagnostic tests based on the clinical
02-05-2022	MONDAY	IM1.14 Demonstrate and measure jugular venous distension	SU10.3 Observe common surgical procedures and assist in minor surgical	CM 20.3 Describe any event important to Health of the Community	OG6.1 Describe, discuss and demonstrate the clinical features of	PE6.9 Perform routine	CT1.15 Prescribe an appropriate antituberculosis regimen
03-05-2022	TUESDAY	HoIDAY					
04-05-2022	WEDNESDAY	IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure	SU3.2 Observe blood transfusions.	CM 2.1 Describe the steps and perform clinico-socio-cultural and demographic	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE1.7 Perform Development	CT1.5 Elicit, document and present an appropriate medical
05-05-2022	THURSDAY	IM1.18 Perform and interpret a 12 lead ECG	SU11.3 Demonstrate maintenance of an airway in a mannequin or	CM 5.2 Describe and demonstrate the correct method of performing a	OG8.1 Enumerate, describe and discuss the objectives of antenatal	PE7.7 Perform breast	CT2.9 Perform a systematic examination that establishes the
06-05-2022	FRIDAY	IM1.22 Assist and demonstrate the proper technique in collecting specimen for blood culture	SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated	CM 5.4 Plan and recommend a suitable diet for the individuals	OG8.1 Enumerate, describe and discuss the objectives of antenatal	PE8.4 Elicit history on the Complement	CT2.10 Generate a differential diagnosis and prioritise based on
09-05-2022	MONDAY	IM5.9 Elicit document and present a medical history that helps delineate the etiology of the current	SU18.3 Describe and demonstrate the clinical examination of surgical	CM 10.5 Describe Universal Immunization Program	OG8.2 Elicit document and present an obstetric history including menstrual	PE:End Posting Examination	CT:End Posting Examination
10-05-2022	TUESDAY	IM5.15 Assist in the performance and interpret the findings of an ascitic fluid Analysis	SU27.4 Describe the types of gangrene and principles of amputation	CM 17.5 Describe health care delivery in India	OG12.1 Define, classify and describe the etiology and pathophysiology,	CT1.15 Prescribe an appropriate	PE6.9 Perform routine Adolescent Health check up including eliciting
11-05-2022	WEDNESDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU25.5 Demonstrate the correct technique to palpate the breast for breast	CM14.1, CM 14.2 Define and classify hospital waste &	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.6 Demonstrate and perform	PE2.2 Assessment of a child with failing to thrive including eliciting
12-05-2022	THURSDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.8 Generate a differential	PE2.5 Assessment of a child with short stature:Elicit history,
13-05-2022	FRIDAY	IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG11.1 Describe the etiopathology, clinical features; diagnosis and	CT1.9 Order and interpret diagnostic	PE6.8 Respecting patient privacy and maintaining confidentiality while
16-05-2022	MONDAY	IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	SU27.2 Demonstrate the correct examination of the vascular	CM 17.5 Describe health	OG11.1 Describe the etiopathology, clinical	CT1.9 Order and interpret	PE6.8 Respecting patient privacy and maintaining

		liver function changes and hepatitis serology	system and	care delivery in India	features; diagnosis and	diagnostic	confidentiality while
17-05-2022	TUESDAY	IM1.16 Identify, discuss and defend medicolegal, socio-cultural, professional and ethical issues as it pertains to the	SU25.4 Counsel patient and obtain informed consent for treatment of Malignant	CM 10.2 Enumerate and describe the methods of screening high risk groups	OG12.2 Define, classify and describe the etiology, pathophysiology,	CT1.10 Perform and interpret an	PE7.5 Observe the correct technique of breast feeding and
18-05-2022	WEDNESDAY	IM6.7 Elicit document and present a medical history that helps delineate the etiology of the current presentation and includes risk factors for HIV, mode of infection, other sexually transmitted diseases, risks for opportunistic infections and nutritional status	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	CM10.5, CM 10.3 Describe Universal Immunization Program & Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices	OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers	PE6.1 Define Adolescence and stages of adolescence
19-05-2022	THURSDAY	IM6.8 Generate a differential diagnosis and prioritize based on clinical features that suggest a specific etiology for the presenting	SU28.2 Demonstrate the correct technique to examine the patient with	CM 10.5, CM 10.3 Describe Universal Immunization Program & Describe local	OG12.3 Define, classify and describe the etiology, pathophysiology,	CT2.8 Elicit document and present a	PE7.5 Observe the correct technique of breast feeding and

20-05-2022	FRIDAY	IM6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC sputum examination and Small group Written/ Skill opportunistic infections including CBC, sputum examination and assessment cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs	SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias	CM 3.8 Describe the mode of action, application cycle of commonly used insecticides and rodenticides	OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	CT2.9 Perform a systematic examination that establishes the diagnosis and severity that includes measurement of respiratory rate, level of respiratory distress, effort tolerance, breath sounds, added sounds, identification of signs of consolidation pleural effusion and pneumothorax	PE7.7 Perform breast examination and identify common problems during lactation such as retracted nipples, cracked nipples, breast engorgement, breast abscess
23-05-2022	MONDAY	IM:End Posting Examination	SU:End Posting Examination	CM:End Posting Examination	OG:End Posting Examination	CT:End Posting Examination	PE:End Posting Examination
Batches		D	E	A	B	C1 & C2	C2 & C1
24-05-2022	TUESDAY	IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure	SU3.2 Observe blood transfusions.	CM 2.1 Describe the steps and perform clinico-socio-cultural and demographic	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE1.7 Perform Development	CT1.5 Elicit, document and present an appropriate medical
25-05-2022	WEDNESDAY	IM1.11 Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its	SU3.3 Counsel patients and family/ friends for blood transfusion and blood	CM 2.2 Describe the socio-cultural factors, family (types), its role in health	OG5.1 Describe, discuss and identify pre-existing medical disorders and	PE2.2 Assessment of a child with	CT1.6 Demonstrate and perform a systematic examination that
26-05-2022	THURSDAY	IM1.12 Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure	SU9.3 Communicate the results of surgical investigations and counsel the	CM 2.3 Describe and demonstrate in a simulated environment the	OG5.2 Determine maternal high risk factors and verify immunization status	PE2.5 Assessment of a child with	CT1.8 Generate a differential diagnosis based on the clinical
27-05-2022	FRIDAY	IM1.13 Measure the blood pressure accurately, recognize and discuss alterations in blood pressure in	SU10.3 Observe common surgical procedures and assist in minor surgical	CM 3.5 Describe the standards of housing and the effect of housing on	OG5.2 Determine maternal high risk factors and verify immunization status	PE6.8 Respecting patient	CT1.9 Order and interpret diagnostic tests based on the clinical
30-05-2022	MONDAY	IM1.14 Demonstrate and measure jugular venous distension	SU10.3 Observe common surgical procedures and assist in minor surgical	CM 20.3 Describe any event important to Health of the Community	OG6.1 Describe, discuss and demonstrate the clinical features of	PE6.9 Perform routine	CT1.15 Prescribe an appropriate antituberculosis regimen

31-05-2022	TUESDAY	IM1.15 Identify and describe the timing, pitch quality conduction and significance of precordial murmurs and their variations	SU10.4 Perform basic surgical Skills such as First aid including suturing and minor surgical procedures in simulated environment	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures	OG14.1 Enumerate and discuss the diameters of maternal pelvis and types	PE6.1 Define Adolescence and stages of adolescence	CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers
01-06-2022	WEDNESDAY	IM1.19 Enumerate the indications for and describe the findings of heart failure with the following conditions	SU10.4 Perform basic surgical Skills such as First aid including suturing and	and life cycles of vectors o	OG6.1 Describe, discuss and demonstrate the clinical features of	PE7.5 Observe the correct	CT2.8 Elicit document and present a medical history that will
02-06-2022	THURSDAY	IM1.18 Perform and interpret a 12 lead ECG	SU11.3 Demonstrate maintenance of an airway in a mannequin or	CM 5.2 Describe and demonstrate the correct method of performing a	OG8.1 Enumerate, describe and discuss the objectives of antenatal	PE7.7 Perform breast	CT2.9 Perform a systematic examination that establishes the
03-06-2022	FRIDAY	IM1.22 Assist and demonstrate the proper technique in collecting specimen for blood culture	SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated	CM 5.4 Plan and recommend a suitable diet for the individuals	OG8.1 Enumerate, describe and discuss the objectives of antenatal	PE8.4 Elicit history on the Complement	CT2.10 Generate a differential diagnosis and prioritise based on
06-06-2022	MONDAY	IM5.9 Elicit document and present a medical history that helps delineate the etiology of the current	SU18.3 Describe and demonstrate the clinical examination of surgical	CM 10.5 Describe Universal Immunization Program	OG8.2 Elicit document and present an obstetric history including menstrual	PE:End Posting Examination	CT:End Posting Examination
07-06-2022	TUESDAY	IM5.12 Choose and interpret appropriate diagnostic tests including: CBC, bilirubin, function tests, Hepatitis	SU18.3 Describe and demonstrate the clinical examination of surgical	CM 5.6 Integrated Child Development Services	OG8.2 Elicit document and present an obstetric history including menstrual	CT1.5 Elicit, document and present	PE1.7 Perform Developmental assessment and
6//8/2022	WEDNESDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU25.5 Demonstrate the correct technique to palpate the breast for breast	CM14.1, CM 14.2 Define and classify hospital waste &	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.6 Demonstrate and perform	PE2.2 Assessment of a child with failing to thrive including eliciting
09-06-2022	THURSDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.8 Generate a differential	PE2.5 Assessment of a child with short stature:Elicit history,
10-06-2022	FRIDAY	IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG11.1 Describe the etiopathology, clinical features; diagnosis and	CT1.9 Order and interpret diagnostic	PE6.8 Respecting patient privacy and maintaining confidentiality while

13-06-2022	MONDAY	IM5.10 Perform a systematic examination that establishes the diagnosis and severity that includes	SU27.2 Demonstrate the correct examination of the vascular system and	CM 17.5 Describe health care delivery in India	OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical	CT1.8 Generate a differential	PE2.5 Assessment of a child with short stature:Elicit history,
14-06-2022	TUESDAY	IM5.15 Assist in the performance and interpret the findings of an ascitic fluid Analysis	SU27.4 Describe the types of gangrene and principles of amputation	CM 17.5 Describe health care delivery in India	OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	CT1.15 Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines	PE6.9 Perform routine Adolescent Health check up including eliciting history, performing examination including SMR (Sexual Maturity Rating), growth assessments (using Growth charts) and systemic exam including thyroid and Breast exam and the HEADSS screening
15-06-2022	WEDNESDAY	IM6.7 Elicit document and present a medical history that helps delineate the etiology of the current	SU27.6 Describe pathophysiology, clinical features, Investigations and	CM10.5, CM 10.3 Describe	OG12.1 Define, classify and describe the etiology and pathophysiology,	CT1.16 Describe the appropriate	PE6.1 Define Adolescence and stages of adolescence
16-06-2022	THURSDAY	IM6.8 Generate a differential diagnosis and prioritize based on clinical features that suggest a specific etiology for the presenting	SU28.2 Demonstrate the correct technique to examine the patient with	CM 10.5, CM 10.3 Describe Universal Immunization Program & Describe local	OG12.3 Define, classify and describe the etiology, pathophysiology,	CT2.8 Elicit document and present a	PE7.5 Observe the correct technique of breast feeding and
17-06-2022	FRIDAY	IM6.10 Choose and interpret appropriate diagnostic	SU28.2 Demonstrate the correct technique to examine the patient with	CM 3.8 Describe the mode of action, application cycle of commonly used	OG12.4 Define, classify and describe the etiology, pathophysiology,	CT2.9 Perform a systematic	PE7.7 Perform breast examination and identify common problems
