

PACIFIC INSTITUTE OF MEDICAL SCIENCES ,UMARDA ,UDAIPUR , RAJASTHAN

TEACHING SCHEDULE OF THIRD PROFESSIONAL MBBS PART I (BATCH 2019) 2022-23

DATE	DAY	9-10 AM	10 AM-1 PM	1-2 PM	2-3 PM	3 PM-5 PM
21/2/22	Monday	OP1.1 -Describe the physiology of vision (Lecture)	CLINICAL POSTINGS	Lunch	IM8.1 Describe and discuss the epidemiology, aetiology and the prevalence of primary and secondary hypertension (Lecture)	EN 2.11 Describe and identify by clinical examination malignant & pre- malignant ENT diseases (SGL)
						FM 2.20,Mechanical asphyxia: Define, classify and describe asphyxia and medico-legal interpretation of post-mortem findings in asphyxial deaths & FM 2.21 Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material. (SGL)
22/2/22	Tuesday	CM 7.1 Define Epidemiology and describe and enumerate the principles, concepts and uses (Lecture)			SU18.1 Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections. (Lecture)	CM 7.3 Enumerate, describe and discuss the sources of epidemiological data (SGL)
						OP1.2 -Define, classify and describe the types and methods of correcting refractive errors (SGL)
23/2/22	Wednesday	EN1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)	OG13.1 Enumerate and discuss the physiology of normal labor , mechanism of labor in occipito- anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor (Lecture)	RD1.11 Preparation of patient for common imaging procedures (SGL)		
24/2/22	Thursday	FM2.24. Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat (heat-hyper-pyrexia, heat stroke, sun stroke, heat exhaustion/prostration, heat cramps [miner's cramp] or cold (systemic and localized hypothermia, frostbite, trench foot, immersion foot) (Lecture)		OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip (Lecture)	OP1.2 -Define, classify and describe the types and methods of correcting refractive errors (SGL)	
			CM 7.3 Enumerate, describe and discuss the sources of epidemiological data (SGL)			

25/2/22	Friday	PS3.2 Enumerate, describe and discuss important signs & symptoms of common mental disorders (Lecture)		AETCOM 3.1: The foundations of communication-3 (SGL)	<p>EN 2.11 Describe and identify by clinical examination malignant & pre- malignant ENT diseases (SGL)</p> <p>FM 2.20, Mechanical asphyxia: Define, classify and describe asphyxia and medico-legal interpretation of post-mortem findings in asphyxial deaths & FM 2.21 Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material. (SGL)</p>
26/2/22	Saturday	AS1.1 Describe the evolution of Anaesthesiology as a modern specialty, AS1.2 Describe the roles of Anaesthesiologist in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labour analgesia, in the resuscitation of acutely ill, AS1.3 Enumerate and describe the principle of ethics as it relates to Anaesthesiology & AS1.4 Describe the prospects of Anaesthesiology as a career (Lecture)		IM8.3 Describe and discuss the genetic basis of hypertension (SDL)	EN4.6 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Discharging ear (SDL)
27/2/22	Sunday	Holiday			
28/2/22	Monday	OP1.4 -Enumerate the indications and describe the principles of refractive surgery (Lecture)		IM8.2 Describe and discuss the pathophysiology of hypertension (Lecture)	<p>EN 3.1 Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment (SGL)</p> <p>FM 2.22 Mechanical asphyxia: Describe and discuss patho-physiology, clinical features, post-mortem findings and medico-legal aspects of traumatic asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia & FM 2.23 Describe and discuss types, patho-physiology, clinical features, post mortem findings and medico-legal aspects of drowning, diatom test and, gettler test. (SGL)</p>
1/3/22	Tuesday	CM 6.1 Formulate a research question for a study (Lecture)		SU18.2 Classify skin tumors Differentiate different skin tumors and discuss their management. (Lecture)	<p>CM 7.5 Enumerate, define, describe and discuss epidemiological study designs (SGL)</p> <p>OP1.5 -Define, enumerate the types and the mechanism by which strabismus leads to amblyopic (SGL)</p>

2/3/22	Wednesday	EN1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)	CLINICAL POSTINGS	LUNCH	OG13.2 Describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy (Lecture)	OR 1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock (SGL)	
3/3/22	Thursday	FM 2.25 Describe types of injuries, clinical features, patho-physiology, post- mortem findings and medico-legal aspects in cases of burns, scalds, lightning, electrocution and radiations. (Lecture)			OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip (Lecture)	OP1.5 -Define, enumerate the types and the mechanism by which strabismus leads to amblyopic (SGL)	CM 7.5 Enumerate, define, describe and discuss epidemiological study designs (SGL)
4/3/22	Friday	PS3.3 Elicit, present and document a history in patients presenting with a mental disorder (Lecture)			AETCOM 3.1: The foundations of communication-3 (SGL)	FM 2.22 Mechanical asphyxia: Describe and discuss patho-physiology, clinical features, post-mortem findings and medico-legal aspects of traumatic asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia & FM 2.23 Describe and discuss types, patho-physiology, clinical features, post mortem findings and medico-legal aspects of drowning, diatom test and, gettler test. (SGL)	EN 3.1 Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment (SGL)
5/3/22	Saturday	Formative Assessment-Ophthalmology			IM14.3 Describe and discuss the monogenic forms of obesity (SDL)	EN4.29 Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Rhinitis (SDL)	
6/3/22	Sunday	Holiday					
7/3/22	Monday	OP2.1 -Enumerate the causes, describe and discuss the etiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos (Lecture)			IM8.4 Define and classify hypertension (Lecture)	EN 3.2 Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy (SGL)	
						FM 10.1 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: <ul style="list-style-type: none"> i. Antipyretics – Paracetamol, Salicylates ii. Anti-Infectives (Common antibiotics – an overview) iii. Neuropsychotoxicology Barbiturates, benzodiazepines, phenytoin, lithium, haloperidol, neuroleptics, tricyclics iv. Narcotic Analgesics, Anaesthetics, and Muscle Relaxants (SGL) 	

8/3/22	Tuesday	CM 7.7 Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures & CM 8.4 Describe the principles and enumerate the measures to control a disease epidemic & (Lecture)	CLINICAL POSTINGS	LUNCH	SU19.1 Describe the etiology and classification of cleft lip and palate (Lecture)	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)		
9/3/22	Wednesday	EN1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)			OG14.1 1 Enumerate and discuss the diameters of maternal pelvis and types (Lecture)	OP2.4 - Describe the etiology, clinical presentation. Discuss the complications and management of orbital cellulites (SGL)	PS9.4 Describe the treatment of stress related disorders including behavioural and psychosocial therapy (SGL)	
10/3/22	Thursday	FM 2.25 Describe types of injuries, clinical features, patho-physiology, post-mortem findings and medico-legal aspects in cases of burns, scalds, lightning, electrocution and radiations. (Lecture)			OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip (Lecture)	OP2.4 - Describe the etiology, clinical presentation. Discuss the complications and management of orbital cellulites (SGL)	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)	
11/3/22	Friday	PS3.5 Perform, demonstrate and document a minimal examination (Lecture)			AETCOM 3.1: The foundations of communication-3 (SGL)	EN 3.2 Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy (SGL)	FM 10.1 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: i. Antipyretics – Paracetamol, Salicylates ii. Anti-Infectives (Common antibiotics – an overview) iii. Neuropsychotoxicology Barbiturates, benzodiazepines phenytoin, lithium, haloperidol, neuroleptics, tricyclics iv. Narcotic Analgesics, Anaesthetics, and Muscle Relaxants (SGL)	
12/3/22	Saturday	AS3.1 Describe the principles of preoperative evaluation & AS4.3 Observe and describe the principles and the practical aspects of induction and maintenance of anesthesia (Lecture)			IM1.2 Describe and discuss the genetic basis of some forms of heart failure (SDL)	EN4.41 Describe the clinical features, investigations and principles of management of Acute & chronic abscesses in relation to Pharynx (SDL)		
13/3/22	Sunday	Holiday						
		OP2.1 -Enumerate the causes, describe and discuss the etiology, clinical presentations and diagnostic					EN 3.3 Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy (SGL)	

14/3/22	Monday	features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos (Lecture)	CLINICAL POSTINGS	LUNCH	IM8.8 Describe, discuss and identify target organ damage due to hypertension (Lecture)	FM 10.1 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: v. C cardiovascular Toxicology Cardiotoxic plants – oleander, odollam, aconite, digitalis vi. G astro-Intestinal and Endocrinal Drugs – Insulin (SGL)	
15/3/22	Tuesday	CM 7.7 Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures & CM 8.4 Describe the principles and enumerate the measures to control a disease epidemic & (Lecture)			SU20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer. (Lecture)	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)	OP2.7 - Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours (SGL)
16/3/22	Wednesday	EN1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)			OG14.2 Discuss the mechanism of normal labor ,define and describe obstructed labor , its clinical features; prevention, and mangement (Lecture)	AS2.1 Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates & AS2.2 Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults and children (SGL)	
17/3/22	Thursday	FM3-18 Describe anatomy of male and female genitalia, hymen and its types. Discuss the medico-legal importance of hymen. Define virginity, defloration, legitimacy and its medicolegal importance. (Lecture)			OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip (Lecture)	OP2.7 - Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours (SGL)	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)
18-03-22 & 19-03-22	Friday & Saturday	Holi & Dhulandi					
20/3/22	Sunday	Holiday					
21/3/22	Monday	OP2.1 -Enumerate the causes, describe and discuss the etiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum			IM8.5 Describe and discuss the differences between primary and	EN 3.3 Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy (SGL)	

21/3/22	Monday	adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos (Lecture)
22/3/22	Tuesday	CM 7.8 Describe the principles of association, causation and biases in epidemiological studies & CM 7.9 Describe and demonstrate the application of computers in epidemiology & CM 8.7 Describe the principles of management of information systems (Lecture)
23/3/22	Wednesday	EN1.2 Describe the pathophysiology of common diseases in ENT (Lecture)
24/3/22	Thursday	FM3.13 Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date.& FM 3.17 Describe and discuss the sexual perversions fetishism, transvestism, voyeurism, sadism, necrophagia, masochism, exhibitionism, frotteurism, Necrophilia (Lecture)
25/3/22	Friday	PS4.1 Describe the magnitude and etiology of alcohol and substance use disorders (Lecture)

CLINICAL POSTINGS

LUNCH

between primary and secondary hypertension (Lecture)	FM 5.1 Classify common mental illnesses including post-traumatic stress disorder (PTSD). & FM 5.2 Define, classify and describe delusions, hallucinations, illusion, lucid interval and obsessions with exemplification. & FM 5.4 Differentiate between true insanity from feigned insanity (SGL)
SU22.1 Describe the applied anatomy and physiology of thyroid (Lecture)	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)
OG19.1 Describe, discuss the physiology of puerperium, its complication, diagnosis and management; counseling for contraception, puerperal sterilization (Lecture)	OP2.8 - List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral (SGL)
OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	RT4.1 Describe and discuss teletherapy machine (Co60/LINAC) (SGL)
AETCOM 3.1: The foundations of communication-3 (SGL)	OP2.8 - List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral (SGL)
	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)
	EN 3.4 Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat (SGL)
	FM 10.1 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: v. Cardiovascular Toxicology Cardiotoxic plants – oleander, odollam, aconite, digitalis vi. Gastro-Intestinal and Endocrinal Drugs – Insulin (SGL)

26/3/22	Saturday	AS4.1 Describe and discuss the pharmacology of drugs used in induction and maintenance of general anaesthesia (including intravenous and inhalation induction agents, opiate and non-opiate analgesics, depolarising and non depolarising muscle relaxants, anticholinesterases & AS4.5 Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia (Lecture)			IM 11.4 Describe and discuss the genetic background and the influence of the environment on diabetes (SDL)	OP3.9 - Demonstrate the correct technique of instillation of eye drops in a simulated environment (SDL)
27/3/22	Sunday	Holiday				
28/3/22	Monday	OP2.5 - Describe the clinical features ocular examination and on management of a patient with cavernous sinus thrombosis (Lecture)			IM8.7 Describe and discuss the clinical manifestations of the various aetiologies of secondary causes of hypertension (Lecture)	EN 3.4 Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat (SGL)
						FM 5.3 Describe Civil and criminal responsibilities of a mentally ill person & FM 5.5, Describe & discuss Delirium tremens, FM 5.6 Describe the Indian Mental Health Act, 1987 with special reference to admission, care and discharge of a mentally ill person (SGL)
29/3/22	Tuesday	CM 11.1 Enumerate and describe the presenting features of patients with occupational illness including agriculture & CM 11.4 Describe the principles of ergonomics in health preservation (Lecture)			SU22.6 Describe and discuss the clinical features of hypo – and hyperparathyroidism and the principles of their management (Lecture)	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)
						OP3.6 - Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium (SGL)
30/3/22	Wednesday	EN1.2 Describe the pathophysiology of common diseases in ENT (Lecture)	CLINICAL POSTINGS	LUNCH	OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD (Lecture)	OR 1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation (SGL)
31/3/22	Thursday	FM 3.19 and 21 Discuss the medicolegal aspects of pregnancy, signs of pregnancy, superfoetation, superfecundation. Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) - Prohibition of Sex Selection Act 2003 and Domestic Violence Act 2005 (Lecture)				OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)
				CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (SGL)		

1/4/22	Friday	PS4.2 Elicit, describe and document clinical features of alcohol and substance use disorders (Lecture)		AETCOM 3.1: The foundations of communication-3 (SGL)	EN 4.3 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of ASOM (SGL)
2/4/22	Saturday	Formative Assessment - Otorhinolaryngology		IM11.14 Recognise the presentation of hypoglycaemia and outline the principles on its therapy (SDL)	FM 5.3 Describe Civil and criminal responsibilities of a mentally ill person & FM 5.5, Describe & discuss Delirium tremens, FM 5.6 Describe the Indian Mental Health Act, 1987 with special reference to admission, care and discharge of a mentally ill person (SGL)
3/4/22	Sunday	Holiday			
4/4/22	Monday	OP2.5 - Describe the clinical features ocular examination and on management of a patient with cavernous sinus thrombosis (Lecture)	CLINICAL POSTINGS	IM8.6 Define, describe and discuss and recognise hypertensive urgency and emergency (Lecture)	EN 4.3 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of ASOM (SGL)
5/4/22	Tuesday	CM 11.2 Describe the role, benefits and functioning of the employees state insurance scheme & CM 11.5 Describe occupational disorders of health professionals and their prevention & management (Lecture)		SU23.1 Describe the applied anatomy of adrenal glands (Lecture)	FM 3.14 Describe and discuss the examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases. FM 14.15 To examine & prepare medico-legal report of a victim of sexual offence/unnatural sexual offence in a simulated/ supervised environment. (SGL)
6/4/22	Wednesday	EN2.15 Describe the national programs for prevention of deafness, cancer, noise & environmental pollution (Lecture)		OG21.2 Describe & discuss PPIUCD programme (Lecture)	CM 7.6 Enumerate and evaluate the need of screening tests (SGL)
		FM 3.13. Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC)		LUNCH	OP3.7 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon (SGL)
					OR 1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation (SGL)
				OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of	OP3.7 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon (SGL)

7/4/22	Thursday	and recent amendments notified till date. & FM 3.17 Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date. (Lecture)		Investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	CM 7.6 Enumerate and evaluate the need of screening tests (SGL)	
8/4/22	Friday	PS4.3 Enumerate and describe the indications and interpret laboratory and other tests used in alcohol and substance abuse disorders (Lecture)		AETCOM 3.2: Case studies in bioethics - Disclosure of medical errors (Lecture)	EN 4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Nasal Obstruction (SGL) FM 3.14 Describe and discuss the examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases. FM 14.15 To examine & prepare medico-legal report of a victim of sexual offence/unnatural sexual offence in a simulated/ supervised environment. (SGL)	
9/4/22	Saturday	AS4.5 Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia (Lecture)		SU22.5 Describe the applied anatomy of parathyroid (SDL)	OP3.9 - Demonstrate the correct technique of instillation of eye drops in a simulated environment (SDL)	
10/4/22	Sunday	Holiday				
11/4/22	Monday	OP2.6 - Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis (Lecture)	CLINICAL POSTINGS	LUNCH	IM14.1 Define and measure obesity as it relates to the Indian population (Lecture)	FM 3.15 Describe and discuss examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and dispatch of trace evidences in such cases. & FM 3.16 Describe and discuss adultery and unnatural sexual offences - sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases & FM 14.14 Describe and discuss adultery and unnatural sexual offences - sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases (SGL)
12/4/22	Tuesday	CM 11.3 Enumerate and describe specific occupational health hazards, their risk factors and preventive measures (Lecture)			SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland (Lecture)	CM 7.2 Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and noncommunicable diseases (SGL) OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment (SGL)

13/4/22	Wednesday	EN4.12 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Hearing loss (Lecture)			OG24.1 Define ,classify and discuss abnormal uterine bleeding,its aetiology,clinical features,investigation,diagnosis and management (Lecture)	PS10.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in somatoform, dissociative and conversion disorders (SGL)
14/4/22	Thursday	Ambedkar Jayanti & Mahaveer Jayanti				
15/4/22	Friday	PS4.4 Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy (Lecture)	CLINICAL POSTINGS	LUNCH	AETCOM 3.2: Case studies in bioethics - Disclosure of medical errors (SDL)	EN 4.23 Describe the clinical features, investigations and principles of management of DNS (SGL)
						FM 3.15 Describe and discuss examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and dispatch of trace evidences in such cases. & FM 3.16 Describe and discuss adultery and unnatural sexual offences - sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases & FM 14.14 Describe and discuss adultery and unnatural sexual offences - sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases (SGL)
16/4/22	Saturday	Formative Assessment - Community Medicine			SU25.1 Describe applied anatomy and appropriate investigations for breast disease (SDL)	OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment (SDL)
17/4/22	Sunday	Holiday				
18/4/22	Monday	OP2.6 - Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis (Lecture)			IM14.2 Describe and discuss the aetiology of obesity including modifiable and non-modifiable risk factors and secondary causes (Lecture)	EN 4.23 Describe the clinical features, investigations and principles of management of DNS (SGL)
						FM 11.1 Describe features and management of Snake bite, scorpion sting, bee and wasp sting and spider bite (SGL)
19/4/22	Tuesday	CM 15.1, Define and describe the concept of mental Health, & CM 15.2 Describe warning			SU24.1 Describe the clinical features, principles of investigation, prognosis and	CM 7.2 Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and noncommunicable diseases (SGL)

17/4/22	Tuesday	signals of mental health disorder & CM 15.3 Describe National Mental Health program (Lecture)	CLINICAL POSTINGS	LUNCH	principles of investigation, prognosis and management of pancreatitis. (Lecture)	OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment (SGL)
20/4/22	Wednesday	EN4.13 Describe the clinical features, investigations and principles of management of Otosclerosis (Lecture)			OG25.1 Describe and discuss the causes of primary and secondary amenorrhoea, its investigation and the principles of management (Lecture)	AS3.2 Elicit, present and document an appropriate history including medication history in a patient undergoing Surgery as it pertains to a preoperative anaesthetic evaluation, AS3.3 Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery & AS3.4 Choose and interpret appropriate testing for patients undergoing Surgery (SGL)
21/4/22	Thursday	FM 3.19 Discuss the medicolegal aspects of pregnancy, signs of pregnancy, superfoetation, superfecundation & FM 3.21 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) - Prohibition of Sex Selection Act 2003 and Domestic Violence Act 2005 (Lecture)			OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	OP4.3 - Enumerate the causes of corneal edema (SGL)
22/4/22	Friday	PS4.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in alcohol and substance abuse (Lecture)			AETCOM 3.2: Case studies in bioethics - Disclosure of medical errors (SDL)	EN 4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Nasal Polyps (SGL)
						FM 11.1 Describe features and management of Snake bite, scorpion sting, bee and wasp sting and spider bite (SGL)
23/4/22	Saturday	AS4.6 Observe and describe the principles and the steps/ techniques involved in day care anesthesia & AS4.7 Observe and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room (Lecture)			SU28.5 Describe the applied Anatomy and physiology of esophagus (SDL)	OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment (SDL)
24/4/22	Sunday	Holiday				
25/4/22	Monday	OP3.3 - Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications, and management of various causes			IM14.4 Describe and discuss the impact of environmental factors including eating habits, food, work, environment and	EN 4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Nasal Polyps (SGL)

		Complications, and management of various causes of conjunctivitis (Lecture)	CLINICAL POSTINGS		physical activity on the incidence of obesity (Lecture)	FM 13.1 Describe toxic pollution of environment, its medico-legal aspects & toxic hazards of occupation and industry. & FM 13.2 Describe medico-legal aspects of poisoning in Workman's Compensation Act. (SGL)
26/4/22	Tuesday	CM 16.1 Define and describe the concept of Health planning & CM 16.2 Describe planning cycle (Lecture)		LUNCH	SU24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors. (Lecture)	CM 10.2 Enumerate and describe the methods of screening high risk groups and common health problems (SGL)
						OP4.3 - Enumerate the causes of corneal edema (SGL)
27/4/22	Wednesday	EN4.14 Describe the clinical features, investigations and principles of management of Sudden Sensorineural Hearing Loss EN4.15 Describe the clinical features, investigations and principles of management of Noise Induced Hearing Loss (Lecture)			OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis (Lecture)	RD1.12 Effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure (SGL)
28/4/22	Thursday	FM 3.19 Discuss the medicolegal aspects of delivery, precipitate labour, signs of recent and remote delivery in living and dead. & FM 3.20 Discuss disputed paternity and maternity. (Lecture)			OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	OP4.6 - Enumerate the indications and the types of keratoplasty (SGL)
						CM 10.4 Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions (SGL)
29/4/22	Friday	PS5.1 Classify and describe the magnitude and etiology of schizophrenia & other psychotic disorders (Lecture)			AETCOM 3.2: Case studies in bioethics - Disclosure of medical errors (Lecture)	EN 4.36 Describe the clinical features, investigations and principles of management of diseases of the Salivary glands (SGL)
					FM 13.1 Describe toxic pollution of environment, its medico-legal aspects & toxic hazards of occupation and industry. & FM 13.2 Describe medico-legal aspects of poisoning in Workman's Compensation Act. (SGL)	
30/4/22	Saturday	Formative Assessment - Forensic Medicine		SU28.7 Describe the applied anatomy and physiology of stomach (SDL)	CM 17.3 Describe primary health care, its components and principles & CM 17.4 Describe National policies related to health and health planning and millennium development goals (SDL)	
1/5/22	Sunday	Holiday				
2/5/22	Monday	OP3.4 - Describe the aetiology, pathophysiology, ocular features, differential diagnosis	POSTINGS	LUNCH	IM14.5 Describe and discuss the natural history of obesity and its	EN 4.36 Describe the clinical features, investigations and principles of management of diseases of the Salivary glands (SGL)

2/5/22	Monday	Ocular features, differential diagnosis, complications and management of trachoma.	CLINICAL	LECTURE	History of obesity and its complications (Lecture)	FM 12.1 Describe features and management of abuse/poisoning with following chemicals: Tobacco, cannabis, amphetamines, cocaine, hallucinogens, designer drugs & solvent (SGL)		
3/5/22	Tuesday	Eid - Ul - Fitar						
4/5/22	Wednesday	EN4.18 Describe the clinical features, investigations and principles of management of Facial Nerve palsy (Lecture)	CLINICAL POSTINGS	LUNCH	OG26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae (Lecture)	OR 1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation (SGL)		
5/5/22	Thursday	FM 3.23 Discuss Sterilization of male and female, artificial insemination, Test Tube Baby, surrogate mother, hormonal replacement therapy with respect to appropriate national and state laws.(Lecture)			OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	OP4.6 - Enumerate the indications and the types of keratoplasty (SGL)	CM 10.4 Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions (SGL)	
6/5/22	Friday	PS5.2 Enumerate, elicit, describe and document clinical features, positive (Lecture)			AETCOM 3.2: Case studies in bioethics - Disclosure of medical errors (Lecture)	EN 4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina (SGL)	FM 12.1 Describe features and management of abuse/poisoning with following chemicals: Tobacco, cannabis, amphetamines, cocaine, hallucinogens, designer drugs & solvent (SGL)	
7/5/22	Saturday	Formative Assessment - Ophthalmology			SU28.13 Describe the applied anatomy of small and large intestine (SDL)	CM 1.3 Describe the characteristics of agent, host and environmental factors in health and disease and the multifactorial etiology of disease & CM 1.4 Describe and discuss the natural history of disease CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) (SDL)		
8/5/22	Sunday	Holiday						
9/5/22	Monday	OP3.5 - Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh (Lecture)					IM14.13 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for obesity (Lecture)	EN 4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina (SGL) FM 14.17 To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, cannabis, opium, aconite copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco. (SGL)

10/5/22	Tuesday	CM 16.3 Describe Health management techniques & CM 16.4 Describe health planning in India and National policies related to health and health planning (Lecture)	CLINICAL POSTINGS
11/5/22	Wednesday	EN4.19 Describe the clinical features, investigations and principles of management of Vertigo EN4. 20 Describe the clinical features, investigations and principles of management of Meniere's Disease (Lecture)	
12/5/22	Thursday	FM 3.24 Discuss the relative importance of surgical methods of contraception (vasectomy and tubectomy) as methods of contraception in the National Family Planning Programme. & FM 3.25 Discuss the major results of the National Family Health Survey (Lecture)	
13/5/22	Friday	PS5.3 Describe the treatment of schizophrenia including behavioural and pharmacologic therapy (Lecture)	

LUNCH

SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
OG27.1 Describe and discuss the etiology,pathology, clinical features,differential diagnosis , investigations , management and long term implications og sexually transmitted infections (Lecture)	PS11.4 Describe the treatment of personality disorders including behavioural, psychosocial and pharmacologic therapy (SGL)
OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	OP4.7 - Enumerate the indications and describe the methods of tarsorrhaphy (SGL)
	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
AETCOM 3.3: The foundations of communication - 4 (Lecture)	EN 4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Tonsillitis (SGL)
	FM 14.17 To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, cannabis, opium, aconite, copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco. (SGL)

14/5/22	Saturday	AS5.1 Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined),AS5.2 Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces,AS5.4 Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia & AS5.5 Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children (Lecture)			OG35.12 Obtain a PAP smear in a stimulated environment (SDL)	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases (SDL)	
15/5/22	Sunday	Holiday					
16/5/22	Monday	OP4.1 - Enumerate, describe and discuss the types and causes of corneal ulceration (Lecture)	CLINICAL POSTINGS	LUNCH	IM21.1 Describe the initial approach to the stabilisation of the patient who presents with poisoning (Lecture)	EN 4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Tonsillitis (SGL)	
							FM 2.17 Describe and discuss exhumation & FM 2.18 Crime Scene Investigation:- Describe and discuss the objectives of crime scene visit, the duties & responsibilities of doctors on crime scene and the reconstruction of sequence of events after crime scene investigation (SGL)
17/5/22	Tuesday	CM 17.4 Describe National policies related to health and health planning and millennium development goals (Lecture)			SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast. (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)	OP6.2 - Identify and distinguish acute iridocyclitis from chronic iridocyclitis (SGL)
18/5/22	Wednesday	EN4.21 Describe the clinical features, investigations and principles of management of Tinnitus (Lecture)			OG27.2 Describe and discuss the etiology,pathology, clinical features,differential diagnosis , investigations , management and long term implications of genital tuberculosis (Lecture)	AS3.5 Determine the readiness for General Surgery in a patient based on the preoperative evaluation & AS3.6 Choose and write a prescription for appropriate premedications for patients undergoing surgery (SGL)	
					OR 2.4 Describe and discuss the		OP6.2 - Identify and distinguish acute iridocyclitis from chronic iridocyclitis (SGL)

19/5/22	Thursday	FM 3.27 Define, classify and discuss abortion, methods of procuring MTP and criminal abortion and complication of abortion. MTP Act 1971 (Lecture)		mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
20/5/22	Friday	PS5.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in schizophrenia (Lecture)		AETCOM 3.3: The foundations of communication - 4 (SGL)	EN 4.42 Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of hoarseness of voice (SGL) FM 2.17 Describe and discuss exhumation & FM 2.18 Crime Scene Investigation:- Describe and discuss the objectives of crime scene visit, the duties & responsibilities of doctors on crime scene and the reconstruction of sequence of events after crime scene investigation (SGL)
21/5/22	Saturday	Formative Assessment - Otorhinolaryngology		OG19.2 Counsel in a simulated environment , contraception and puerperal sterilisation (SDL)	FM 1.2: Describe History of Forensic Medicine (SDL)
22/5/22	Sunday	Holiday			
23/5/22	Monday	OP4.1 - Enumerate, describe and discuss the types and causes of corneal ulceration (Lecture)		IM21.2 Enumerate the common plant poisons seen in your area and describe their toxicology, clinical features, prognosis and specific approach to detoxification (Lecture)	EN 4.42 Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of hoarseness of voice (SGL) FM 2.16 Describe and discuss examination of mutilated bodies or fragments, charred bones and bundle of bones. & FM 14.19 Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment. (SGL)
24/5/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)		SU26.3 Describe the clinical features of mediastinal diseases and the principles of management (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL) OP6.3 - Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations (SGL)

25/5/22	Wednesday	EN4.27 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Allergic Rhinitis (Lecture)	CLINICAL POSTINGS	LUNCH	OG27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV (Lecture)	RT4.2 Enumerate, describe and discuss types of treatment plan, basic workflow of 2D/3DCRT/IMRT/IGRT (SGL)	
26/5/22	Thursday	FM3.28 Describe evidences of abortion - living and dead, duties of doctor in cases of abortion, investigations of death due to criminal abortion. (Lecture)			OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	OP6.3 - Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations (SGL)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
27/5/22	Friday	PS6.1 Classify and describe the magnitude and etiology of depression (Lecture)			AETCOM 3.3: The foundations of communication - 4 (SGL)	EN 4.43 Describe the clinical features, investigations and principles of management of Acute & Chronic Laryngitis (SGL)	FM 2.16 Describe and discuss examination of mutilated bodies or fragments, charred bones and bundle of bones. & FM 14.19 Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment. (SGL)
28/5/22	Saturday	AS5.1 Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined), AS5.2 Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces, AS5.4 Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia & AS5.5 Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children (Lecture)			OG20.2 In a simulated environment administer informed consent to a person wishing to undergo medical Termination of Pregnancy (SDL)	FM 2.30 Have knowledge/awareness of latest decisions/notifications/ resolutions/circulars/standing orders related to medico-legal practice issued by Courts/Government authorities etc (SDL)	
29/5/22	Sunday	Holiday					
					EN 4.43 Describe the clinical features, investigations and principles of management of Acute & Chronic Laryngitis (SGL)		

30/5/22	Monday	OP4.2 - Enumerate and discuss the differential diagnosis of infective keratitis (Lecture)
31/5/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)
1/6/22	Wednesday	EN4.28 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Vasomotor Rhinitis (Lecture)
2/6/22	Thursday	FM 4.1 Describe Medical Ethics and explain its historical emergence. (Lecture)
3/6/22	Friday	PS6.2 Enumerate, elicit, describe and document clinical features in patients with depression (Lecture)

CLINICAL POSTINGS

LUNCH

IM21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical features, prognosis and approach to therapy (Lecture)	FM 2.33 Demonstrate ability to use local resources whenever required like in mass disaster situations & FM 2.34 Demonstrate ability to use local resources whenever required like in mass disaster situations & FM 2.35 Demonstrate professionalism while conducting autopsy in medicolegal situations, interpretation of findings and making inference/opinion, collection preservation and dispatch of biological or trace evidences. (SGL)
SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
OG27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of pelvic inflammatory disease (Lecture)	OP6.4 - Describe and distinguish hyphema and hypopyon (SGL)
OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit (Lecture)	OR 3.2 Participate as a member in team for aspiration of joints under supervision (SGL)
AETCOM 3.3: The foundations of communication - 4 (SGL)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
	EN 4.44 Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord (SGL)
	FM 2.33 Demonstrate ability to use local resources whenever required like in mass disaster situations & FM 2.34 Demonstrate ability to use local resources whenever required like in mass disaster situations & FM 2.35 Demonstrate professionalism while conducting autopsy in medicolegal situations, interpretation of findings and making inference/opinion, collection preservation and dispatch of biological or trace evidences. (SGL)

4/6/22	Saturday	Formative Assessment - Community Medicine			OG13.3 Observe / assist in the performance of an artificial rupture of membranes (SDL)	FM 3.21 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDDT) - Prohibition of Sex Selection Act 2003 (SDL)
5/6/22	Sunday	Holiday				
6/6/22	Monday	OP4.2 - Enumerate and discuss the differential diagnosis of infective keratitis (Lecture)			IM21.4 Enumerate the commonly observed drug overdose in your area and describe their toxicology, clinical features, prognosis and approach to therapy (Lecture)	EN 4.44 Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord (SGL)
						FM 1.9 Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially - Maintenance of patient case records, discharge summary, prescribed registers to be maintained in Health Centres. - Maintenance of medico-legal register like accident register. - Documents of issuance of wound certificate - Documents of issuance of drunkenness certificate. - Documents of issuance of sickness and fitness certificate. - Documents for estimation of age by physical, dental and radiological examination and issuance of certificate (SGL)
7/6/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)			SU27.3 Describe clinical features, investigations and principles of management of vasospastic disorders (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
						OP6.5 - Describe and discuss the angle of the anterior chamber and its clinical correlates (SGL)
8/6/22	Wednesday	EN4.30 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Epistaxis (Lecture)	CLINICAL POSTINGS	LUNCH	OG28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigation; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques (Lecture)	PS13.4 Describe the treatment of psychosexual and gender identity disorders including behavioural, psychosocial and pharmacologic therapy (SGL)
					OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of	OP6.5 - Describe and discuss the angle of the anterior chamber and its clinical correlates (SGL)

9/6/22	Thursday	FM3.29 Describe and discuss child abuse and battered baby syndrome.(Lecture)		Investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis (Lecture)	CM 10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs. (SGL)
10/6/22	Friday	PS6.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression (Lecture)		AETCOM 3.3: The foundations of communication - 4 (SGL)	EN 4.45 Describe the clinical features, investigations and principles of management of Vocal cord palsy (SGL) FM 1.9 Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially - Maintenance of patient case records, discharge summary, prescribed registers to be maintained in Health Centres. - Maintenance of medico-legal register like accident register. - Documents of issuance of wound certificate - Documents of issuance of drunkenness certificate. - Documents of issuance of sickness and fitness certificate. - Documents for estimation of age by physical, dental and radiological examination and issuance of certificate (SGL)
11/6/22	Saturday	AS5.1 Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined),AS5.2 Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces,AS5.4 Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia & AS5.5 Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children (Lecture)		OG13.5 Observe and assist the conduct of a normal vaginal delivery (SDL)	RT4.8 Describe oncological emergencies and palliative care (SDL)
12/6/22	Sunday	Holiday			
					EN 4.45 Describe the clinical features, investigations and principles of management of Vocal cord palsy (SGL)

13/6/22	Monday	OP4.4 - Enumerate the causes and discuss the management of dry eye (Lecture)
14/6/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)
15/6/22	Wednesday	EN4.31 Describe the clinical features, investigations and principles of management of trauma to the face & neck (Lecture)
16/6/22	Thursday	FM 4.9 Describe the medico - legal issues in relation to family violence, violation of human rights, NHRC and doctors.(Lecture)
17/6/22	Friday	PS6.4 Describe the treatment of depression including behavioural and pharmacologic therapy (Lecture)

CLINICAL POSTINGS

LUNCH

IM20.1 Enumerate the local poisonous snakes and describe the distinguishing marks of each (Lecture)	FM 1.9 Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially:. - Documents for issuance of death certificate. -documents of Medical Certification of Cause of Death - Form Number 4 and 4A FM 1.10 Select appropriate cause of death in a particular scenario by referring ICD 10 code FM 1.11 Write a correct cause of death certificate as per ICD 10 document (SGL)
SU27.5 Describe the applied anatomy of venous system of lower limb (Lecture)	CM 11.1 Enumerate and describe the presenting features of patients with occupational illness including agriculture (SGL)
OG28.2 Enumerate the assessment and restoration of tubal latency (Lecture)	OP6.7 - Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucómas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions. (SGL)
OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis (Lecture)	AS4.4 Observe and describe the principles and the steps/ techniques in maintenance of vital organ functions in patients undergoing surgical procedures & AS4.5 Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia (SGL)
AETCOM 3.4: Case studies in bioethics - Confidentiality (Lecture)	OP6.7 - Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucómas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions. (SGL)
	CM 11.1 Enumerate and describe the presenting features of patients with occupational illness including agriculture (SGL)
	EN 4.47 Describe the clinical features, investigations and principles of management of Stridor (SGL)
	FM 1.9 Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially:. - Documents for issuance of death certificate. -documents of Medical Certification of Cause of Death - Form Number 4 and 4A FM 1.10 Select appropriate cause of death in a particular scenario by referring ICD 10 code FM 1.11 Write a correct cause of death certificate as per ICD 10 document (SGL)

18/6/22	Saturday	Formative Assessment - Forensic Medicine		OR 1.3 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of soft tissue injuries & AN 2.4 Describe various types of cartilage with its structure & distribution in body (SDL)	AS9.4 Enumerate blood products and describe the use of blood products in the preoperative period (SDL)
19/6/22	Sunday	Holiday			
20/6/22	Monday	OP4.5 - Enumerate the causes of corneal blindness (Lecture)		IM20.3 Describe the initial approach to the stabilisation of the patient who presents with snake bite (Lecture)	EN 4.47 Describe the clinical features, investigations and principles of management of Stridor (SGL) FM 6.1 Describe different types of specimen and tissues to be collected both in the living and dead: Body fluids (blood, urine, semen, faeces saliva), Skin, Nails, tooth pulp, vaginal smear, viscera, skull, specimen for histo-pathological examination, blood grouping, HLA Typing and DNA Fingerprinting. FM 14.7 Describe Locard's Exchange Principle. FM 14.21 Demonstrate & identify that a particular stain is blood and identify the species of its origin. FM 6.2 To collect, preserve, seal and dispatch exhibits for DNA-Fingerprinting using various formats of different laboratories. FM 6.3 Describe the methods of sample collection, preservation, labelling, dispatch, and interpretation of reports. Demonstrate professionalism while sending the biological or trace evidences to Forensic Science laboratory, specifying the required tests to be carried out, objectives of preservation of evidences sent for examination, personal discussions on interpretation of findings. (SGL)
21/6/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)		SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins (Lecture)	CM 11.3 Enumerate and describe specific occupational health hazards, their risk factors and preventive measures(SGL) OP6.8 - Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea (SGL)
22/6/22	Wednesday	EN4.32 Describe the clinical features, investigations and principles of management of nasopharyngeal Angiofibroma (Lecture)		OG 28.3 Describe the principles of ovulation induction (Lecture)	RD1.13 Components of the PC & PNDT Act and its medicolegal implications (SGL)

23/6/22	Thursday	<p>FM 4.1 Describe Medical Ethics and explain its historical emergence.(Lecture)</p> <p>FM 4.3 Describe the functions and role of Medical Council of India and State Medical Councils.</p> <p>FM 4.4 Describe the Indian Medical Register</p>	CLINICAL POSTINGS	LUNCH	<p>OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis (Lecture)</p>	<p>OP6.8 - Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea (SGL)</p>		
						<p>CM 11.3 Enumerate and describe specific occupational health hazards, their risk factors and preventive measures(SGL)</p>		
24/6/22	Friday	<p>PS6.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in depression (Lecture)</p>					<p>AETCOM 3.4: Case studies in bioethics - Confidentiality (SDL)</p>	<p>EN 4.48 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Airway Emergencies (SGL)</p>
							<p>FM 6.1 Describe different types of specimen and tissues to be collected both in the living and dead: Body fluids (blood, urine, semen, faeces saliva), Skin, Nails, tooth pulp, vaginal smear, viscera, skull, specimen for histo-pathological examination, blood grouping, HLA Typing and DNA Fingerprinting. FM 14.7 Describe Locard's Exchange Principle. FM 14.21 Demonstrate & identify that a particular stain is blood and identify the species of its origin. FM 6.2 To collect, preserve, seal and dispatch exhibits for DNA-Fingerprinting using various formats of different laboratories. FM 6.3 Describe the methods of sample collection, preservation, labelling, dispatch, and interpretation of reports. Demonstrate professionalism while sending the biological or trace evidences to Forensic Science laboratory, specifying the required tests to be carried out, objectives of preservation of evidences sent for examination, personal discussions on interpretation of findings. (SGL)</p>	
25/6/22	Saturday	<p>AS5.1 Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined),AS5.2 Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces,AS5.4 Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia & AS5.5 Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children (Lecture)</p>			<p>OR 1.3 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of soft tissue injuries & AN 2.4 Describe various types of cartilage with its structure & distribution in body (SDL)</p>	<p>CT1.19 Communicate with patients and family in an empathetic manner about the diagnosis, therapy (SDL)</p>		
26/6/22	Sunday	Holiday						

27/6/22	Monday	OP4.5 - Enumerate the causes of corneal blindness (Lecture)	CLINICAL POSTINGS	LUNCH	IM20.8 Describe the diagnosis, initial approach stabilisation and therapy of scorpion envenomation (Lecture)	EN 4.48 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Airway Emergencies (SGL)		
							FM 7.1 Enumerate the indications and describe the principles and appropriate use for: - DNA profiling - Facial reconstruction - Polygraph (Lie Detector) - Narcoanalysis, - Brain Mapping, - Digital autopsy, - Virtual Autopsy, - Imaging technologies (SGL)	
28/6/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)					SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias (Lecture)	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)
							OP6.9 - Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions (SGL)	
29/6/22	Wednesday	EN4.33 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Sinusitis (Lecture)					OG28.4 Enumerate the various assisted reproduction techniques (Lecture)	OR 3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotoomy (SGL)
							OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis (Lecture)	OP6.9 - Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions (SGL)
30/6/22	Thursday	FM3.19 Discuss the medicolegal aspects of pregnancy, signs of pregnancy, superfoetation, superfecundation.(Lecture)				CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)		
1/7/22	Friday	PS7.1 Classify and describe the magnitude and etiology of bipolar			AETCOM 3.4: Case studies in bioethics -	EN 4.49 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of foreign bodies in the air & food passages (SGL)		

		disorders (Lecture)			Confidentiality (SDL)	FM 7.1 Enumerate the indications and describe the principles and appropriate use for: - DNA profiling - Facial reconstruction - Polygraph (Lie Detector) - Narcoanalysis, - Brain Mapping, - Digital autopsy, Virtual Autopsy, - Imaging technologies (SGL)
2/7/22	Saturday	Formative Assessment - General Medicine			OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip & AN 2.5 Describe various joints with subtypes and examples (SDL)	DR1.1 Enumerate the causative and risk factors of acne & DR6.1 Describe the etiology pathogenesis and diagnostic features of pediculosis in adults and children (SDL)
3/7/22	Sunday	Holiday				
4/7/22	Monday	OP4.9 - Describe and discuss the importance & protocols involved in eye donation and eye banking (Lecture)			IM3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia (Lecture)	EN 4.49 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of foreign bodies in the air & food passages (SGL) FM 2.27 Define and discuss infanticide, foeticide and stillbirth. Fm 2.28 Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy. FM 14. 13 To estimate the age of foetus by post-mortem examination. (SGL)
5/7/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)			SU28.3 Describe causes, clinical features, complications and principles of mangament of peritonitis (Lecture)	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL) OP8.2 - Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy) (SGD)
6/7/22	Wednesday	EN4.34 Describe the clinical features, investigations and principles of management of Tumors of Maxilla (Lecture)			OG29.1 Describe and discuss the etiology; pathology; clinical features ; differential diagnosis; investigations; principles of management, complications of fibroid uterus (Lecture)	OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves (SGL)

- POSTINGS

LUNCH

7/7/22	Thursday	FM4.2 Describe the Code of Medical Ethics 2002 conduct, Etiquette and Ethics in medical practice and unethical practices & the dichotomy.(Lecture)	CLINICAL	OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis (Lecture)	OP8.2 - Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy) (SGL)
					CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)
8/7/22	Friday	PS7.2 Enumerate, elicit, describe and document clinical features in patients with bipolar disorders (Lecture)		AETCOM 3.4: Case studies in bioethics - Confidentiality (Lecture)	FM 2.27 Define and discuss infanticide, foeticide and stillbirth. Fm 2.28 Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy. FM 14. 13 To estimate the age of foetus by post-mortem examination. (SGL)
					EN 4.49 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of foreign bodies in the air & food passages (SGL)
9/7/22	Saturday	AS5.3 Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks &AS5.6 Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks) (Lecture)		OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip & AN 2.5 Describe various joints with subtypes and examples (SDL)	DR17.3 Enumerate and describe the various changes in Vitamin C deficiency & DR18.1 Enumerate the cutaneous features of Type 2 diabetes (SGL)
10/7/22	Sunday	Holiday			
11/7/22	Monday	OP4.9 - Describe and discuss the importance & protocols involved in eye donation and eye banking (Lecture)		IM3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host (Lecture)	EN 4.49 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of foreign bodies in the air & food passages (SGL)
					FM 2.19 Investigation of anaesthetic, operative deaths: Describe and discuss special protocols for conduction of autopsy and for collection, preservation and dispatch of related material evidences. (SGL)
12/7/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case		SU28.8 Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis. Peritonsillar abscess	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)

12/7/22	Tuesday	including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS	LUNCH	hyperplastic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach (Lecture)	OP8.3 - Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam (SGL)		
13/7/22	Wednesday	EN4.35 Describe the clinical features, investigations and principles of management of Tumors of Nasopharynx (Lecture)			OG30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS (Lecture)	PS14.2 Enumerate, elicit, describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence (SGL)		
14/7/22	Thursday	FM4.5 Rights/privileges of a medical practitioner, penal erasure, infamous conduct, disciplinary Committee, disciplinary procedures, warning notice and penal erasure. (Lecture)			OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis (Lecture)	OP8.3 - Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam (SGL) CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)		
15/7/22	Friday	PS 7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders (Lecture)			AETCOM 3.4: Case studies in bioethics - Confidentiality (Lecture)	EN 4.24 Enumerate the indications observe and describe the steps in a septoplasty(SGL) FM 2.19 Investigation of anaesthetic, operative deaths: Describe and discuss special protocols for conduction of autopsy and for collection, preservation and dispatch of related material evidences. (SGL)		
16/7/22	Saturday	Formative Assessment - General Surgery			OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip & AN 2.5 Describe various joints with subtypes and examples (SDL)	DR12.1 Describe the aetiopathogenesis of eczema & DR12.3 Classify and grade eczema (SDL)		
17/7/22	Sunday	Holiday						
							EN 4.24 Enumerate the indications observe and describe the steps in a septoplasty (SGL)	

18/7/22	Monday	OP5.1 - Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis (Lecture)
19/7/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)
20/7/22	Wednesday	EN4.38 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of dysphagia (Lecture)
21/7/22	Thursday	FM4.24 Enumerate rights, privileges and duties of a Registered Medical Practitioner. Discuss doctor-patient relationship: professional secrecy and privileged communication. (Lecture)

CLINICAL POSTINGS

LUNCH

IM3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia (Lecture)	FM 3.30 Describe and discuss issues relating to torture, identification of injuries caused by torture and its sequelae, management of torture survivors. Torture and Human rights FM 3.31 Describe and discuss guidelines and Protocols of National Human Rights Commission regarding torture. FM 3.33 Should be able to demonstrate the professionalism while dealing with victims of torture and human right violations, sexual assaults- psychological consultation, rehabilitation FM 14.18 To examine & prepare medico-legal report of a person in police, judicial custody or referred by Court of Law and violation of human rights as requirement of NHRC, who has been brought for medical examination.(SGL)
SU28.10 Describe the applied anatomy of liver. Describe the clinical features. Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver (Lecture)	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)
OG31.1 Describe and discuss the etiology; classification clinical features ; diagnosis; investigations; principles of management, and preventive aspects of prolapse of uterus (Lecture)	OP8.5 - Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway (SGL)
OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine (Lecture)	AS6.1 Describe the principles of monitoring and resuscitation in the recovery room, AS6.2 Observe and enumerate the contents of the crash cart and describe the equipment used in the recovery room & AS6.3 Describe the common complications encountered by patients in the recovery room, their recognition and principles of management (SGL)
	OP8.5 - Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway (SGL)
	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)
	EN 3.4 Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat (SGL)

22/7/22	Friday	PS7.4 Describe the treatment of bipolar disorders including behavioural and pharmacologic therapy (Lecture)		AETCOM 3.5: Case studies in bioethics - Fiduciary duty (Lecture)	FM 3.30 Describe and discuss issues relating to torture, identification of injuries caused by torture and its sequelae, management of torture survivors. Torture and Human rights FM 3.31 Describe and discuss guidelines and Protocols of National Human Rights Commission regarding torture. FM 3.33 Should be able to demonstrate the professionalism while dealing with victims of torture and human right violations, sexual assaults- psychological consultation, rehabilitation FM 14.18 To examine & prepare medico-legal report of a person in police, judicial custody or referred by Court of Law and violation of human rights as requirement of NHRC, who has been brought for medical examination. (SGL)
23/7/22	Saturday	AS5.3 Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks & AS5.6 Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks) (Lecture)		PS16.3 Describe the therapy of psychiatric illness in elderly including psychosocial and behavioural therapy (SDL)	PE3.2 Discuss the approach to a child with developmental delay (SDL)
24/7/22	Sunday	Holiday			
25/7/22	Monday	OP5.1 - Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis (Lecture)		IM6.1 Describe and discuss the symptoms and signs of acute HIV seroconversion & IM6.2 Define and classify HIV AIDS based on the CDC criteria (Lecture)	EN 3.4 Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat (SGL) FM 2.15 Describe special protocols for conduction of medico-legal autopsies in cases of death in custody or following violation of human rights as per National Human Rights Commission Guidelines. FM 2.30 Have knowledge/awareness of latest decisions/notifications/ resolutions/circulars/standing orders related to medico-legal practice issued by Courts/Government authorities etc FM 2.31 Demonstrate ability to work in a team for conduction of medico-legal autopsies in cases of death following alleged negligence medical dowry death, death in custody or following violation of human rights as per National Human Rights Commission Guidelines on exhumation. FM 2.32 Demonstrate ability to exchange information by verbal, or nonverbal communication to the peers, family members, law enforcing agency and judiciary. (SGL)

26/7/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS
27/7/22	Wednesday	EN4.46 Describe the clinical features, investigations and principles of management of Malignancy of the Larynx & Hypopharynx (Lecture)	
28/7/22	Thursday	FM4.18 Describe and discuss medical negligence including civil and criminal negligence, contributory negligence, corporate negligence, vicarious liability, Res Ipsa Loquitor, prevention of medical negligence and defenses in medical negligence litigations. (Lecture)	

LUNCH

SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post splenectomy sepsis - prophylaxis (Lecture)	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)
OG32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy (Lecture)	RT4.3 Describe and discuss Brachytherapy machine (remote after loading) (SGL)
OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine (Lecture)	OP9.3 - Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral (SGL)
	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SGL)
	EN 4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Nasal Obstruction (SGL)

29/7/22	Friday	PS7.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in bipolar disorders (Lecture)		AETCOM 3.5: Case studies in bioethics - Fiduciary duty (SDL)	FM 2.15 Describe special protocols for conduction of medico-legal autopsies in cases of death in custody or following violation of human rights as per National Human Rights Commission Guidelines. FM 2.30 Have knowledge/awareness of latest decisions/notifications/ resolutions/circulars/standing orders related to medico-legal practice issued by Courts/Government authorities etc FM 2.31 Demonstrate ability to work in a team for conduction of medico-legal autopsies in cases of death following alleged negligence medical dowry death, death in custody or following violation of human rights as per National Human Rights Commission Guidelines on exhumation. FM 2.32 Demonstrate ability to exchange information by verbal, or nonverbal communication to the peers, family members, law enforcing agency and judiciary. (SGL)
30/7/22	Saturday	Formative Assessment - Obstetrics & Gynaecology		PS 17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide, Deliberate Self Harm, Violent behaviour) (SDL)	PE10.6 Enumerate the role of locally prepared therapeutic diets and ready to use therapeutic diets (SDL)
31/7/22	Sunday	Holiday			
1/8/22	Monday	OP6.1 - Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition (Lecture)		IM6.4 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections (Lecture)	EN 4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Nasal Obstruction (SGL) FM 4.6 Describe the Laws in Relation to medical practice and the duties of a medical practitioner towards patients and society. FM 4.28 Demonstrate respect to laws relating to medical practice and Ethical code of conduct prescribed by Medical Council of India and rules and regulations prescribed by it from time to time.(SGL)
2/8/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case		SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of	CM 10.4 Describe the national programs for anemia prevention (SGL)

2/8/22	Tuesday	including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS	LUNCH	features, investigations and principles of management of diseases of biliary system (Lecture)	OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury (SGL)
3/8/22	Wednesday	EN4.52 Describe the Clinical features, Investigations and principles of management of diseases of Oesophagus (Lecture)			OG32.2 Enumerate the causes of postmenopausal bleeding and describe its management (Lecture)	OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves (SGL)
4/8/22	Thursday	FM4.21 Describe Products liability and Medical Indemnity Insurance. (Lecture)			OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine (Lecture)	OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury (SGL)
						CM 10.4 Describe the national programs for anemia prevention (SGL)
5/8/22	Friday	PSS.1 Enumerate and describe the magnitude and etiology of anxiety disorders (Lecture)			AETCOM 3.5: Case studies in bioethics - Fiduciary duty (SDL)	EN 4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Nasal Polyps (SGL)
						the duties of a medical practitioner towards patients and society. FM 4.28 Demonstrate respect to laws relating to medical practice and Ethical code of conduct prescribed by Medical Council of India and rules and regulations prescribed by it from time to time. (SGL)
6/8/22	Saturday	Formative Assessment - Obstetrics & Gynaecology			PS 18.3 Enumerate and describe the principles and role of psychosocial interventions in psychiatric illness including psychotherapy, behavioural therapy and rehabilitation (SDL)	PE19.9 Describe the components of safe vaccine practice – Patient education/ counselling; adverse events following immunization, safe injection practices, documentation and Medico-legal implications PE19.15 Explain the term implied consent in Immunization services (SDL)
7/8/22	Sunday	Holiday				
8/8/22	Monday	Moharram				

9/8/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS	LUNCH	SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome (Lecture)	CM 8.2 Describe and discuss the impact of environmental factors including eating habits, food, work, environment and physical activity on the incidence of obesity (SGL)
10/8/22	Wednesday	EN4.53 Describe the clinical features, investigations and principles of management of HIV manifestations of the ENT (Lecture)			OG33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer (Lecture)	OP 6.3 - Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations (SGL)
11/8/22	Thursday	Rakshabandhan				
12/8/22	Friday	PS8.2 Enumerate, elicit, describe and document clinical features in patients with anxiety disorders (Lecture)	CLINICAL POSTINGS	LUNCH	AETCOM 3.5: Case studies in bioethics - Fiduciary duty (Lecture)	EN 4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Nasal Polyps (SGL)
13/8/22	Saturday	AS5.3 Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks & AS5.6 Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks) (Lecture)			AETCOM RT4.9 Display empathy in the care of patients with cancer (Lecture)	FM 14.15 Conduct & prepare post-mortem examination report of varied etiologies (at least 15) in a simulated/ supervised environment. [i. Natural death – Myocardial infarction ii. Natural death – Lung pathology (Tuberculosis)] (SGL)
14/8/22	Sunday	Holiday				
15/8/22	Monday	Independence Day				

16/8/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS	LUNCH	SU28.16 Describe applied anatomy including congenital anomalies of the rectum and anal canal (Lecture)	CM 8.2 Describe and discuss the impact of environmental factors including eating habits, food, work, environment and physical activity on the incidence of obesity (SGL)
17/8/22	Wednesday	EN4.53 Describe the clinical features, investigations and principles of management of HIV manifestations of the ENT (Lecture)			OG29.1 Describe and discuss the etiology; pathology; clinical features ; differential diagnosis; investigations; principles of management, complications of fibroid uterus (Lecture)	AS7.1 Visit, enumerate and describe the functions of an Intensive Care Unit & AS7.2 Enumerate and describe the criteria for admission and discharge of a patient to an ICU (SGL)
18/8/22	Thursday	FM4.26 Discuss the constitution and functions of ethical committees. (Lecture)			OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine (Lecture)	OP 9.3 - Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral (SGL)
19/8/22	Friday	PS8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders (Lecture)			AETCOM RT4.9 Display empathy in the care of patients with cancer (Lecture)	EN 4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina (SGL)
						FM 4.13 Describe social aspects of Medico-legal cases with respect to victims of assault, rape, attempted suicide, homicide, domestic violence, dowry- related cases. FM 4.14 Describe & discuss the challenges in managing medico-legal cases including development of skills in relationship management – Human behaviour, communication skills, conflict resolution techniques. FM 4.15 Describe the principles of handling pressure – definition, types, causes, sources and skills for managing the pressure while dealing with medico-legal cases by the doctor. (SGL)
20/8/22	Saturday	OP2.4 Describe the etiology, clinical presentation. Discuss the complications and management of orbital cellulites (SGL)				

21/8/22	Sunday	Holiday				
22/8/22	Monday	OP6.1 - Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition (Lecture)	CLINICAL POSTINGS	LUNCH	IM6.4 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections (Lecture)	EN 4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina (SGL)
						FM 4.10 Describe communication between doctors, public and media & FM 4.29 Demonstrate ability to communicate appropriately with media, public and doctors. (SGL)
23/8/22	Tuesday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS	LUNCH	SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases (Lecture)	CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices & Complementary feeding (SGL)
						OP 9.3 - Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral (SGL)
24/8/22	Wednesday	EN 4.15 Describe the clinical features, investigations and principles of management of Noise Induced Hearing Loss (Lecture)	CLINICAL POSTINGS	LUNCH	OG32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy (Lecture)	RT4.7 Counsel patients regarding acute and late effects of radiation and supportive care (SGL)
25-08-22 to 03-09-22	Semester Examination					
4/9/22	Sunday	Holiday				
5/9/22	Monday	OP7.1 - Describe the surgical anatomy and the metabolism of the lens (Lecture)	CLINICAL POSTINGS	LUNCH	RD1.1 Radiation ,the interaction of radiation and importance of radiation protection (Lecture)	IM8.1 Describe and discuss the epidemiology, aetiology and the prevalence of primary and secondary hypertension & IM8.2 Describe and discuss the pathophysiology of hypertension (SGL)
						SU20.2 Enumerate the appropriate investigations and discuss the Principles of treatment. (SGL)
6/9/22	Tuesday	FM 4.27 Describe and discuss Ethical Guidelines for Biomedical Research on Human Subjects &	CLINICAL POSTINGS	LUNCH	PAN 3.1 Outbreak Management including	PE9.1 Describe the age related nutritional needs of infants, children and adolescents including micronutrients and vitamins (SGL)

6/9/22	Tuesday	TOP Biomedical Research on Human Subjects & Animals. (Lecture)	CLINICAL POSTINGS	LUNCH	Quarantine, Isolation, Contact Tracing (Lec)	OG19.4 Enumerate the indications for describe the steps in and insert and remove an intrauterine device in a simulated environment (SGL)
7/9/22	Wednesday	EN 4.20 Describe the clinical features, investigations and principles of management of Meniere's Disease (Lecture)			DR1.3 Describe the treatment and preventive measures for various kinds of acne (Lecture)	CM 10.5 Discuss immunization in special situations – HIV positive children, immunodeficiency, preterm , organ transplants, those who received blood and blood products, splenectomised children, Adolescents, travellers (SGL)
8/9/22	Thursday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)			PE1.1 Define the terminologies Growth and development and discuss the factors affecting normal growth and development (Lecture)	PE9.1 Describe the age related nutritional needs of infants, children and adolescents including micronutrients and vitamins (SGL)
						OG19.4 Enumerate the indications for describe the steps in and insert and remove an intrauterine device in a simulated environment (SGL)
9/9/22	Friday	IM24.15 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of vision and visual loss in the elderly (Lecture)			AS7.3 Observe and describe the management of an unconscious patient (Lecture)	IM8.1 Describe and discuss the epidemiology, aetiology and the prevalence of primary and secondary hypertension & IM8.2 Describe and discuss the pathophysiology of hypertension (SGL)
10/9/22	Saturday	DR14.1 Describe the etiology, pathogenesis and clinical precipitating features and classification of Urticaria and angioedema (Lecture)			Sports and ECA	SU20.2 Enumerate the appropriate investigations and discuss the Principles of treatment. (SGL)
						CT1.12 Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing (SGL)
11/9/22	Sunday	Holiday				
12/9/22	Monday	OP7.2 - Describe and discuss the aetiopathogenesis, stages of maturation and complications of cataract (Lecture)		RD1.2 Evolution of Radiodiagnosis with various radiological equipments In the current era (Lecture)	IM8.14 Develop an appropriate treatment plan for essential hypertension & IM8.20 Determine the need for specialist consultation (SGL)	
				SU22.2 Describe the etiopathogenesis of thyroidal swellings (SGL)		

13/9/22	Tuesday	FM 4.7 Describe and discuss the ethics related to HIV patients (Lecture)	CLINICAL POSTINGS	LUNCH	PAN 3.1 Outbreak Management including Quarantine, Isolation, Contact Tracing (Lec)	PE10.1 Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM) (SGL)
14/9/22	Wednesday	EN 1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)			DR2.2 Describe the treatment of vitiligo (Lecture)	DR9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions (SGL)
15/9/22	Thursday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)			PE1.2 Discuss and describe the patterns of growth in infants, children and Adolescents & PE1.3 Discuss and describe the methods of assessment of growth Including use of WHO and Indian national standards. Enumerate the parameters used for assessment of physical growth in infants, children and adolescents (Lecture)	PE10.1 Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM) (SGL)
16/9/22	Friday	Reflective Writing - Community Medicine			CT1.1 Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India (Lecture)	IM8.14 Develop an appropriate treatment plan for essential hypertension & IM8.20 Determine the need for specialist consultation (SGL)
17/9/22	Saturday	DR17.1 Enumerate and identify the cutaneous findings in vitamin A deficiency (Lecture)			Sports and ECA	SU22.2 Describe the etiopathogenesis of thyroidal swellings (SGL)
18/9/22	Sunday	Holiday				
19/9/22	Monday	OP7.2 - Describe and discuss the aetio-pathogenesis, stages of maturation and			RD1.3 Indications for various common radiological investigations, choose the most appropriate and cost effective method and	IM14.9 Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc. & IM14.10 Describe the indications and interpret the results of tests for secondary causes of obesity (SGL)

		complications of cataract (Lecture)	CLINICAL POSTINGS	interpret findings in common conditions pertaining to disorder of ENT (Lecture)	SU22.6 Describe and discuss the clinical features of hypo – and hyperparathyroidism and the principles of their management (SGL)
20/9/22	Tuesday	FM 4.11 Describe and discuss euthanasia (Lecture)		PAN 3.1 Outbreak Management including Quarantine, Isolation, Contact Tracing (Lec)	PE11.1 Describe the common etiology, clinical features and management of obesity in children (SGL)
					OG19.2 Counsel in a simulated environment, contraception and puerperal sterilisation (SGL)
21/9/22	Wednesday	EN 4.46 Describe the clinical features, investigations and principles of management of Malignancy of the Larynx & Hypopharynx (Lecture)		DR3.3 Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy (Lecture)	CM 7.4 Define, calculate and interpret morbidity and mortality indicators based on given set of data & CM 7.5 Enumerate, define, describe and discuss epidemiological study designs & CM 7.6 Enumerate and evaluate the need of screening tests (SGL)
22/9/22	Thursday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)		PE1.5 Define development and discuss the normal developmental milestones with respect to motor, behavior, social, adaptive and language (Lecture)	PE11.1 Describe the common etiology, clinical features and management of obesity in children (SGL)
					OG19.2 Counsel in a simulated environment, contraception and puerperal sterilisation (SGL)
23/9/22	Friday	IM24.17 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of hearing loss in the elderly (Lecture)		AS7.4 Observe and describe the basic setup process of a ventilator (Lecture)	IM14.9 Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc. & IM14.10 Describe the indications and interpret the results of tests for secondary causes of obesity (SGL)
24/9/22	Saturday	PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation) (Lecture)		Sports and ECA	CT1.12 Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing (SGL)
25/9/22	Sunday	Holiday			
26/9/22	Monday	Navratri Sthapna			

LUNCH

27/9/22	Tuesday	FM 2.26 Describe and discuss clinical features, post-mortem findings and medico-legal aspects of death due to starvation and neglect (Lecture)	CLINICAL POSTINGS	LUNCH	PAN 3.1 Outbreak Management including Quarantine, Isolation, Contact Tracing (Lec)	PE12.5 Discuss the Vitamin A prophylaxis program and their recommendations (SGL)		
							OG19.1 Describe , discuss the physiology of puerperium , its complication,diagnosis and management; counseling foe contraception, puerperal sterilization (SGL)	
28/9/22	Wednesday	EN 1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)					DR4.2 Enumerate and describe the treatment modalities for lichen planus (Lecture)	DR9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions (SGL)
29/9/22	Thursday	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case, & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)					PE1.6 Discuss the methods of assessment of development (Lecture)	PE12.5 Discuss the Vitamin A prophylaxis program and their recommendations (SGL)
								OG19.1 Describe , discuss the physiology of puerperium , its complication,diagnosis and management; counseling foe contraception, puerperal sterilization (SGL)
30/9/22	Friday	Reflective Writing - Forensic Medicine			CT1.2 Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis, clinical evolution and natural history of pulmonary and extra pulmonary forms (including lymph node, bone and CNS) (Lecture)	IM14.14 Describe and enumerate the indications and side effects of bariatric surgery & IM14.15 Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle (SGL)		
						SU22.6 Describe and discuss the clinical features of hypo – and hyperparathyroidism and the principles of their management (SGL)		
1/10/22	Saturday	OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves (SGL)			Sports and ECA	OP 6.3 - Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations (SGL)		
2/10/22	Sunday	Holiday						

3/10/22	Monday	OP7.4 - Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery (Lecture)	CLINICAL POSTINGS	LUNCH	RD1.4 Indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy (Lecture)	IM14.14 Describe and enumerate the indications and side effects of bariatric surgery & IM14.15 Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle (SGL)
4/10/22	Tuesday	FM 4.22 Explain Oath – Hippocrates, Charaka and Sushruta and procedure for administration of Oath. & FM 4.23 Describe the modified Declaration of Geneva and its relevance. (Lecture)	CLINICAL POSTINGS	LUNCH	PAN 3.1 Outbreak Management including Quarantine, Isolation, Contact Tracing (Lec)	PE13.1 Discuss the RDA, dietary sources of Iron and their role in health and disease (SGL)
5/10/22	Wednesday	Dussehra Holiday				
6/10/22	Thursday	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POSTINGS	LUNCH	PE2.1 Discuss the etiopathogenesis, clinical features and management of a child who fails to thrive (Lecture)	PE13.1 Discuss the RDA, dietary sources of Iron and their role in health and disease (SGL)
7/10/22	Friday	Reflective Writing - Ophthalmology	CLINICAL POSTINGS	LUNCH	CT1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis (Lecture)	IM21.6 Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning (SGL)

8/10/22	Saturday	OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves (SGL)		Sports and ECA	CT1.13 Describe and discuss the origin, indications, technique of administration, efficacy and complications of the BCG vaccine (SGL)	
9/10/22	Sunday	Holiday				
10/10/22	Monday	OP7.4 - Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery (Lecture)		RD1.5 Indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine (Lecture)	IM21.6 Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning (SGL)	
11/10/22	Tuesday	FM 3.22 Define and discuss impotence, sterility, frigidity, sexual dysfunction, premature ejaculation. Discuss the causes of impotence and sterility in male and female (Lecture)		PANDEMIC MODULE CM 3.2 interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health (Lec)	SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast (SGL)	
					PE13.2 Describe the causes, diagnosis and management of Fe deficiency (SGL)	
12/10/22	Wednesday	EN4.5 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of OME (Lecture)		DR5.1 Describe the etiology, microbiology, pathogenesis, natural history, clinical features, presentations and complications of scabies in adults and children (Lecture)	OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD (SGL)	
					DR9.7 Enumerate and describe the complications of leprosy and its management, including understanding disability and stigma. (SGL)	
		CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3	CLINICAL POSTINGS	LUNCH	PE13.2 Describe the causes, diagnosis and management of Fe deficiency (SGL)	

13/10/22	Thursday	Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)		a child with short stature & PE2.6 Enumerate the referral criteria for problems (Lecture)	OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD (SGL)
14/10/22	Friday	OG8.1 Enumerate describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors (Lecture)		AS7.5 Observe and describe the principles of monitoring in an ICU (Lecture)	IM20.6 Choose and interpret the appropriate diagnostic testing in patients with snake bites & IM20.7 Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti snake venom (SGL) SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast (SGL)
15/10/22	Saturday	OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves (SGL)		Sports and ECA	OP 9.3 - Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral (SGL)
16/10/22	Sunday	Holiday			
17/10/22	Monday	OP8.1 - Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina (Lecture)		RD1.6 Indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery (Lecture)	IM20.6 Choose and interpret the appropriate diagnostic testing in patients with snake bites & IM20.7 Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti snake venom (SGL) SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast. (SGL)
18/10/22	Tuesday	FM 3.26 Discuss Sterilization of male and female, artificial insemination, Test Tube Baby, surrogate mother, hormonal replacement therapy with respect to appropriate national and state laws. (Lecture)		PANDEMIC MODULE CM 3.2 interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health (Lec)	in health and disease PE13.2 Describe the causes, diagnosis and management of Fe deficiency PE13.6 Discuss the National anaemia control program and its recommendations (SGL) OG23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management (SGL)

19/10/22	Wednesday	EN4.7 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of CSOM (Lecture)	CLINICAL POSTINGS	LUNCH	DR5.3 Enumerate and describe the pharmacology, administration and adverse reaction of pharmacotherapies for scabies (Lecture)	CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures & CM 3.6 Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program & CM 3.8 Describe the mode of action, application cycle of commonly used insecticides and rodenticides (SGL)		
20/10/22	Thursday	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)			PE3.1 Define, enumerate and discuss the causes of developmental delay and disability including intellectual disability in children (Lecture)	PE13.1 Discuss the RDA, dietary sources of Iron and their role in health and disease & PE13.2 Describe the causes, diagnosis and management of Fe deficiency & PE13.6 Discuss the National anaemia control program and its recommendations (SGL)	OG23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management (SGL)	
21/10/22	Friday	Reflective Writing - Otorhinolaryngology			CT1.4 Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs (Lecture)	IM3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia & IM3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia (SGL)	SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast. (SGL)	
22/10/22	Saturday	OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves (SGL)			Sports and ECA	CT1.13 Describe and discuss the origin, indications, technique of administration, efficacy and complications of the BCG vaccine (SGL)		
23-10-22 to 30-10-22		Deepawali Vacation						
31/10/22	Monday	OP8.4 - Enumerate and discuss treatment modalities in management of diseases of the retina					RD1.7 Indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions	IM3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia & IM3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia (SGL)

		(Lecture)	CLINICAL POSTINGS
1/11/22	Tuesday	FM 3.13 Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date. (Lecture)	
2/11/22	Wednesday	EN4.8 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of CSOM (Lecture)	
3/11/22	Thursday	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	
4/11/22	Friday	Reflective Writing - Community Medicine	

LUNCH

Interpret findings in common conditions pertaining to disorder in Pediatrics (Lecture)	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases (SGL)
<p>PANDEMIC MODULE CM 3.2 interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health (Lec)</p>	<p>PE14.1 Discuss the risk factors, clinical features, diagnosis and management of Lead Poisoning PE14.2 Discuss the risk factors, clinical features, diagnosis and management of Kerosene ingestion PE14.3 Discuss the risk factors, clinical features, diagnosis and management of Organophosphorous poisoning (SGL)</p>
	OG22.2 Describe and discuss the entiology(with special emphasis on cardida t. vaginalis, bacterial vaginosis),characteristics,clinical diagnosis, investigation,genital hygiene, management of common causes and the syndromic management (SGL)
DR7.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of dermatophytes in adults and children (Lecture)	CM 10.6 Enumerate and describe various family planning methods, their advantages and shortcomings & CM 10.7 Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects (SGL)
<p>PE3.5 Discuss the role of the child developmental unit in management of developmental delay & PE3.6 Discuss the referral criteria for children with developmental delay (Lecture)</p>	<p>PE14.1 Discuss the risk factors, clinical features, diagnosis and management of Lead Poisoning & PE14.2 Discuss the risk factors, clinical features, diagnosis and management of Kerosene ingestion & PE14.3 Discuss the risk factors, clinical features, diagnosis and management of Organophosphorous poisoning (SGL)</p>
	OG22.2 Describe and discuss the entiology(with special emphasis on cardida t. vaginalis, bacterial vaginosis),characteristics,clinical diagnosis, investigation,genital hygiene, management of common causes and the syndromic management (SGL)
CT1.14 Describe and discuss the pharmacology of various anti-tuberculous agents, their indications, Contraindications, interactions and adverse reactions (Lecture)	IM3.17 Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation & IM3.19 Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines (SGL)

					Interactions and adverse reactions (Lecture)	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases (SGL)	
5/11/22	Saturday	Formative Assessment - General Medicine			Sports and ECA	OP6.3 - Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations (SGL)	
6/11/22	Sunday	Holiday					
7/11/22	Monday	OP9.2 - Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropic strabismus (Lecture)	CLINICAL POSTINGS	LUNCH	RD1.8 Indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to common malignancies (Lecture)	IM3.17 Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation & IM3.19 Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines (SGL)	
							SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. (SGL)
8/11/22	Tuesday	FM2.24. Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat (heat-hyper-pyrexia, heat stroke, sun stroke, heat exhaustion/prostration, heat cramps [miner's cramp] or cold (systemic and localized hypothermia, frostbite, trench foot, immersion foot) (Lecture)				<p>PANDEMIC MODULE CM 3.2 interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health (Lec)</p>	<p>PE15.1 Discuss the fluid and electrolyte requirement in health and disease PE15.2 Discuss the clinical features and complications of fluid and electrolyte imbalance and outline the management (SGL)</p>
							OG24.1 Define ,classify and discuss abnormal uterine bleeding,its aetiology,clinical features,investigation,diagnosis and management (SGL)
9/11/22	Wednesday	EN4.26 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Adenoids (Lecture)				DR7.3 Describe the pharmacology and action of antifungal (systemic and topical) agents. Enumerate side effects of antifungal therapy (Lecture)	DR9.7 Enumerate and describe the complications of leprosy and its management, including understanding disability and stigma. (SGL)
10/11/22	Thursday	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3 Enumerate and describe disease specific National			PE3.8 Discuss the etio-pathogenesis, clinical presentation and multidisciplinary approach in the management of Cerebral	PE15.1 Discuss the fluid and electrolyte requirement in health and disease PE15.2 Discuss the clinical features and complications of fluid and electrolyte imbalance and outline the management (SGL)	

10/11/22	Thursday	Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)		approach in the management of Cerebral palsy (Lecture)	OG24.1 Define ,classify and discuss abnormal uterine bleeding,its aetiology,clinical features,investigation,diagnosis and management (SGL)
11/11/22	Friday	RD1.13 Describe the components of the PC & PNDT act and its medicolegal implications (Lecture)		AS8.1 Describe the anatomical correlates and physiologic principles of pain (Lecture)	IM6.3 Describe and discuss the relationship between CDC count and the risk of opportunistic infections (SGL) SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. (SGL)
12/11/22	Saturday	Formative Assessment - General Surgery		Sports and ECA	CI2.24 Recognise the impact of OAD on patient's quality of life, well being, work and family (SGL)
13/11/22	Sunday	Holiday			
14/11/22	Monday	OP9.4 - Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020) (Lecture)		RD1.9 Role of Interventional Radiology in common clinical conditions (Lecture)	IM6.3 Describe and discuss the relationship between CDC count and the risk of opportunistic infections (SGL) SU27.4 Describe the types of gangrene and principles of amputation (SGL)
15/11/22	Tuesday	FM 3.13 Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date. (Lecture)		PANDEMIC MODULE CM 3.2 interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health (Lec)	PE16.1 Explain the components of Integrated Management of Neonatal and Childhood Illnesses (IMNCI) guidelines and method of Risk stratification (SGL) OG25.1 Describe and discuss the causes of primary and secondary amenorrhea,its investigation and the principles of mangement (SGL)
16/11/22	Wednesday	EN4.2 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear (Lecture)	NGS	DR8.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children (Lecture)	CM 6.2 Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data & CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs & CM 6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion (SGL)

17/11/22	Thursday	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)	CLINICAL POST	LUNCH	PE4.1 Discuss the causes and approach to a child with scholastic Backwardness & PE4.2 Discuss the etiology, clinical features, diagnosis and management of a child with Learning Disabilities (Lecture)	PE16.1 Explain the components of Integrated Management of Neonatal and Childhood Illnesses (IMNCI) guidelines and method of Risk stratification (SGL) OG25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management (SGL)
18/11/22	Friday	Reflective Writing - Forensic Medicine			CT2.1 Define and classify obstructive airway disease (Lecture)	IM6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC (SGL) SU27.4 Describe the types of gangrene and principles of amputation (SGL)
19/11/22	Saturday	Formative Assessment - Obstetrics & Gynaecology			Sports and ECA	OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury (SGL)
20/11/22	Sunday	Holiday				
21/11/22	Monday	OP9.4 - Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020) (Lecture)			RD1.10 Role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical departments (Lecture)	IM6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC (SGL) SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins (SGL)

22/11/22	Tuesday	FM 2.22 Mechanical asphyxia: Describe and discuss patho-physiology, clinical features, post- mortem findings and medico-legal aspects of traumatic asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia (Lecture)
23/11/22	Wednesday	EN4.1 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otagia (Lecture)
24/11/22	Thursday	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.) & CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case & CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease (Lecture)
25/11/22	Friday	PA36.1 Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma (Lecture)

CLINICAL POSTINGS

LUNCH

PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Lec)	PE17.1 State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS PE17.2 Analyze the outcomes and appraise the monitoring and evaluation of NHM (SGL)
	OG28.1 Describe and discuss the common causes,pathogenesis, clinical features, differential diagnosis; investigation; principles of management of inferlity – methods of tubal patency, ovulation induction, assisted reproductive techniques (SGL)
DR9.1 Classify, describe the epidemiology, etiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy (Lecture)	DR17.4 Enumerate and describe the various changes in Zinc deficiency (SGL)
PE4.3 Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD)& PE4.4 Discuss the etiology, clinical features, diagnosis and management of a child with Autism (Lecture)	PE17.1 State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS & PE17.2 Analyze the outcomes and appraise the monitoring and evaluation of NHM (SGL)
	OG28.1 Describe and discuss the common causes,pathogenesis, clinical features, differential diagnosis; investigation; principles of management of inferlity – methods of tubal patency, ovulation induction, assisted reproductive techniques (SGL)
AS8.2 Elicit and determine the level, quality and quantity of pain and its tolerance in patient or surrogate (Lecture)	IM 6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs (SGL)
	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins (SGL)

26/11/22	Saturday	Formative Assessment - Pediatrics			Sports and ECA	CT2.24 Recognise the impact of OAD on patient's quality of life, well being, work and family (SGL)	
27/11/22	Sunday	Holiday					
28/11/22	Monday	OP 5.2 - Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of sclerotic (Lecture)	CLINICAL POSTINGS	LUNCH	RT1.1 Describe and discuss definition of radiation, mechanism of action of radiation, types of radiation (Lecture)	IM 6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs (SGL)	
							SU28.3 Describe causes, clinical features, complications and principles of management of peritonitis (SGL)
29/11/22	Tuesday	FM2.24. Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat (heat-hyper-pyrexia, heat stroke, sun stroke, heat exhaustion/prostration, heat cramps [miner's cramp] or cold (systemic and localized hypothermia, frostbite, trench foot, immersion foot) (Lecture)					PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Lec) PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and Evaluation PE18.2 Explain preventive interventions for child survival and safe motherhood (SGL)
							OG28.2 Enumerate the assessment and restoration of tubal latency (SGL)
30/11/22	Wednesday	EN4.41 Describe the clinical features, investigations and principles of management of Acute & chronic abscesses in relation to Pharynx (Lecture)					DR9.5 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for various classes of leprosy based on national guidelines (Lecture) CM 6.2 Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data & CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs & CM 6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion (SGL)
							PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and Evaluation & PE18.2 Explain preventive interventions for child survival and safe motherhood (SGL)
1/12/22	Thursday	CM 10.1 Describe the current status of Reproductive, maternal, newborn and Child Health & CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices (Lecture)			PE4.5 Discuss the role of Child Guidance clinic in children with Developmental problems (Lecture) PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and Evaluation & PE18.2 Explain preventive interventions for child survival and safe motherhood (SGL)		
					OG28.2 Enumerate the assessment and restoration of tubal latency (SGL)		

2/12/22	Friday	Reflective Writing - Ophthalmology			CT2.2 Describe and discuss the epidemiology, risk factors and evolution of obstructive airway disease (Lecture)	IM6.11 Enumerate the indications and describe the findings for CT of the chest and brain and MRI (SGL)
						SU28.3 Describe causes, clinical features, complications and principles of mangament of peritonitis (SGL)
3/12/22	Saturday	Formative Assessment - Orthopedics			Sports and ECA	OP9.3 - Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral (SGL)
4/12/22	Sunday	Holiday				
5/12/22	Monday	OP3.3 - Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications. and management of various causes of conjunctivitis (Lecture)			RT1.2 Describe and discuss interaction of radiation with matter & measurement of radiation (Lecture)	IM6.11 Enumerate the indications and describe the findings for CT of the chest and brain and MRI (SGL)
						SU28.4 Describe pathophysiology, clinical features, investigations and principles of management of Intra abdominal abscess, mesenteric cyst, and retroperitoneal tumors (SGL)
6/12/22	Tuesday	FM 3.13 Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date. (Lecture)			<p>PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Lec)</p>	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program (SGL)
						OG 28.3 Describe the principles of ovulation induction (SGL)
7/12/22	Wednesday	EN4.5 Observe and describe the indications for and steps involved in tracheostomy (Lecture)	CLINICAL POSTINGS	LUNCH	DR9.6 Describe the treatment of Leprosy based on the WHO guidelines (Lecture)	CM 10.4 Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions (SGL)

8/12/22	Thursday	CM 10.1 Describe the current status of Reproductive, maternal, newborn and Child Health & CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices (Lecture)	CLIN	PE5.1 Describe the clinical features, diagnosis and management of thumb Sucking & PE5.2 Describe the clinical features, diagnosis and management of Feeding problems & PE5.3 Describe the clinical features, diagnosis and management of nail Biting & PE5.4 Describe the clinical features, diagnosis and management of Breath Holding spells (Lecture)	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program (SGL)	
9/12/22	Friday	PE28.4 Discuss the etio-pathogenesis, clinical features and management of Acute Otitis Media (AOM) (Lecture)		AS8.3 Describe the pharmacology and use of drugs in the management of pain (Lecture)	OG 28.3 Describe the principles of ovulation induction (SGL)	
10/12/22	Saturday	Formative Assessment - Dermatology		Sports and ECA	IM6.12 Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph (SGL)	
					SU28.4 Describe pathophysiology, clinical features, investigations and principles of management of Intra abdominal abscess, mesenteric cyst, and retroperitoneal tumors (SGL)	
11/12/22	Sunday	Holiday				
12/12/22	Monday	OP4.1 - Enumerate, describe and discuss the types and causes of corneal ulceration (Lecture)			RT1.3 Enumerate, describe and discuss classification and staging of cancer (AJCC, FIGO etc. (Lecture)	CT2.25 Discuss and describe the impact of OAD on the society and workplace (SGL)
13/12/22	Tuesday	FM 2.21 Mechanical asphyxia: Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal		PANDEMIC MODULE CM 3.3 Operational Research - Field work	IM6.12 Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph (SGL)	
					SU28.6 Describe the clinical features, investigations and principles of management of benign and malignant disorders of esophagus (SGL)	
					PE20.7 Discuss the etiology, clinical features and management of Birth Asphyxia (SGL)	

13/12/22	Tuesday	aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material. (Lecture)	CLINICAL POSTINGS	Operational Research, Field work, Surveillance (Lec)	OG28.4 Enumerate the various assisted reproduction techniques (SGL)	
14/12/22	Wednesday	EN4.29 Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Rhinitis (Lecture)		DR10.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis (Lecture)	DR10.9 Describe the syndromic approach to ulcerative sexually transmitted disease (SGL)	
15/12/22	Thursday	CM 10.1 Describe the current status of Reproductive, maternal, newborn and Child Health & CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices (Lecture)		LUNCH	PE5.5 Describe the clinical features, diagnosis and management of temper Tantrums PE5.6 Describe the clinical features, diagnosis and management of Pica PE5.7 Describe the clinical features, diagnosis and management of Fussy Infant PE5.8 Discuss the etiology, clinical features and management of Enuresis PE5.9 Discuss the etiology, clinical features and management of Encopresis PE5.10 Discuss the role of child guidance clinic in children with behavioral problems and the referral criteria (Lecture)	PE20.7 Discuss the etiology, clinical features and management of Birth Asphyxia (SGL)
						OG28.4 Enumerate the various assisted reproduction techniques (SGL)
16/12/22	Friday	Reflective Writing - Otorhinolaryngology		CT2.4 Describe and discuss the physiology and pathophysiology of hypoxia and hypercapnea (Lecture)	IM6.22 Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV (SGL)	
17/12/22	Saturday	Formative Assessment - Psychiatry			Sports and ECA	SU28.6 Describe the clinical features, investigations and principles of management of benign and malignant disorders of esophagus (SGL)
						OP6.9 - Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions (SGL)
18/12/22	Sunday	Holiday				

19/12/22	Monday	OP7.4 - Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery (Lecture)	CLINICAL POSTINGS	LUNCH	RT2.1 Describe and discuss radiation protection and personnel monitoring during radiation treatment(Lecture)	IM6.22 Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV (SGL)		
							SU28.8 Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach (SGL)	
20/12/22	Tuesday	FM 2.21 Mechanical asphyxia: Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material. (Lecture)					<p>PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Lec)</p>	PE20.14 Discuss the etiology, clinical features and management of Neonatal hypocalcemia & PE20.15 Discuss the etiology, clinical features and management of Neonatal seizures (SGL)
							OG29.1 Describe and discuss the etiology; pathology; clinical features ; differential diagnosis; investigations; principles of management, complications of fibroid uterus (SGL)	
21/12/22	Wednesday	EN4.8 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of CSOM (Lecture)					DR10.4 Describe the prevention of congenital syphilis (Lecture)	CM 10.4 Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions (SGL)
						PE20.14 Discuss the etiology, clinical features and management of Neonatal hypocalcemia & PE20.15 Discuss the etiology, clinical features and management of Neonatal seizures (SGL)		
22/12/22	Thursday	CM 10.7 Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects (Lecture)			PE6.1 Define Adolescence and stages of adolescence & PE6.2 Describe the physical, physiological and psychological changes during adolescence (Puberty) (Lecture)	OG29.1 Describe and discuss the etiology; pathology; clinical features ; differential diagnosis; investigations; principles of management, complications of fibroid uterus (SGL)		
						IM5.7 Enumerate and describe the causes and pathophysiology of drug induced liver injury (SGL)		
23/12/22	Friday	PE17.1 State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to			AS8.4 Describe the principles of pain			

23/12/22	Friday	pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS (Lecture)			management in palliative care (lecture)	SU28.8 Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach (SGL)
24/12/22	Saturday	Formative Assessment - Respiratory Medicine			Sports and ECA	CT2.25 Discuss and describe the impact of OAD on the society and workplace (SGL)
25-12-22 to 31-12-22		Winter Vacation				
1/1/23	Sunday	Holiday				
2/1/23	Monday	OP8.4 - Enumerate and discuss treatment modalities in management of diseases of the retina (Lecture)			RT3.1 Describe and discuss cell cycle and cell survival curve, principles of radiobiology (Lecture)	<p>IM5.7 Enumerate and describe the causes and pathophysiology of drug induced liver injury (SGL)</p> <p>SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver (SGL)</p>
3/1/23	Tuesday	FM 2.21 Mechanical asphyxia: Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material. (Lecture)			PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Lec)	<p>PE20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia & PE20.20 Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen (SGL)</p> <p>OG30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS (SGL)</p>

4/1/23	Wednesday	EN4.41 Describe the clinical features, investigations and principles of management of Acute & chronic abscesses in relation to Pharynx (Lecture)	CLINICAL POSTINGS	LUNCH	DR10.6 Describe the etiology, diagnostic and clinical features of nonsyphilitic sexually transmitted diseases (chancroid, donovanosis and LGV) (Lecture)	CM 20.4 Demonstrate awareness about laws pertaining to practice of medicine such as Clinical establishment Act and Human Organ Transplantation Act and its implications (SGL)	
5/1/23	Thursday	CM 10.8 Describe the physiology, clinical management and principles of adolescent health including ARSH (Lecture)			PE6.3 Discuss the general health problems during adolescence & PE6.4 Describe adolescent sexuality and common problems related to it (Lecture)	PE20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia PE20.20 Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen (SGL)	OG30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS (SGL)
6/1/23	Friday	Reflective Writing - Community Medicine			CT2.16 Discuss and describe therapies for OAD including bronchodilators, leukotriene inhibitors, mast cell stabilisers, theophylline, inhaled and systemic steroids, oxygen and immunotherapy (Lecture)	IM5.13 Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver disease & IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology (SGL)	SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver (SGL)
7/1/23	Saturday	Formative Assessment - Radiodiagnosis & Radiotherapy			Sports and ECA	OP2.4 - Describe the etiology, clinical presentation. Discuss the complications and management of orbital cellulites (SGL)	
8/1/23	Sunday	Holiday					
9/1/23	Monday	OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)			RT3.2 Describe and discuss synergism of radiation and chemotherapy (Lecture)	IM5.13 Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver disease & IM5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology (SGL)	

		(Lecture)	CLINICAL POSTINGS
10/1/23	Tuesday	FM 2.26 Describe and discuss clinical features, post-mortem findings and medico-legal aspects of death due to starvation and neglect(Lecture)	
11/1/23	Wednesday	EN2.13 Identify, resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, throat and upper respiratory tract) (Lecture)	
12/1/23	Thursday	CM 10.1 Describe the current status of Reproductive, maternal, newborn and Child Health & CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices (Lecture)	
13/1/23	Friday	OG20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of medical termination of pregnancy (Lecture)	

LUNCH

		SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system (SGL)
		PE20.8 Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn PE20.9 Discuss the etiology, clinical features and management of Birth injuries (SGL)
		OG32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy (SGL)
		DR10.10 Describe the etiology, diagnostic and clinical features and management of gonococcal and non-gonococcal urethritis (Lecture)
		DR10.11 Describe the etiology, diagnostic and clinical features and management of vaginal discharge (SGL)
		PE20.8 Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn PE20.9 Discuss the etiology, clinical features and management of Birth injuries (SGL)
		OG32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy (SGL)
		IM5.17 Enumerate the indications, precautions and counsel patients on vaccination for hepatitis & IM5.18 Enumerate the indications for hepatic transplantation (SGL)
		AS8.5 Describe the principles of pain management in the terminally ill (Lecture)
		SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system (SGL)

14/1/23	Saturday	Formative Assessment - Anaesthesiology			Sports and ECA	CT1.12 Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing (SGL)	
15/1/23	Sunday	Holiday					
16/1/23	Monday	OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020) (Lecture)	CLINICAL POSTINGS	LUNCH	RT4.4 Describe and discuss different radioactive isotopes and their use in cancer patients (Lecture)	IM5.17 Enumerate the indications, precautions and counsel patients on vaccination for hepatitis & IM5.18 Enumerate the indications for hepatic transplantation (SGL)	
							SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications. (SGL)
17/1/23	Tuesday	FM 2.26 Describe and discuss clinical features, post-mortem findings and medico-legal aspects of death due to starvation and neglect (Lecture)				PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Reflective Writing)	PE20.16 Discuss the etiology, clinical features and management of Neonatal Sepsis & PE20.17 Discuss the etiology, clinical features and management of Perinatal infections (SGL)
							OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD (SGL)
18/1/23	Wednesday	EN 1.1 Describe the Anatomy & physiology of ear, nose, throat, head & neck (Lecture)				DR11.1 Describe the etiology, pathogenesis and clinical features of the dermatologic manifestations of HIV and its complications including opportunistic infections (Lecture)	CM 20.4 Demonstrate awareness about laws pertaining to practice of medicine such as Clinical establishment Act and Human Organ Transplantation Act and its implications (SGL)
					PE6.10 Discuss the objectives and functions of AFHS (Adolescent Friendly Health Services) and the referral criteria &	PE20.16 Discuss the etiology, clinical features and management of Neonatal Sepsis & PE20.17 Discuss the etiology, clinical features and management of Perinatal infections (SGL)	

19/1/23	Thursday	CM 10.7 Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects (Lecture)			PE6.12 Enumerate the importance of obesity and other NCD in adolescents & PE6.13 Enumerate the prevalence and the importance of recognition of sexual drug abuse in adolescents and children (Lecture)	OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD (SGL)	
20/1/23	Friday	Reflective Writing - Forensic Medicine			CT2.26 Discuss and describe preventive measures to reduce OAD in workplaces (Lecture)	IM1.4 Stage heart failure & IM1.5 Describe, discuss and differentiate the processes involved in R Vs L heart failure, systolic vs diastolic failure & IM1.6 Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations (SGL)	SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications. (SGL)
21/1/23	Saturday	Formative Assessment - Pediatrics			Sports and ECA	OP2.4 - Describe the etiology, clinical presentation. Discuss the complications and management of orbital cellulites (SGL)	
22/1/23	Sunday	Holiday					
23/1/23	Monday	OP8.1 - Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina (Lecture)	CLINICAL POSTINGS	LUNCH	RT4.5 Describe and discuss role of radiation in management of common malignancies in India (region specific) (Lecture)	IM1.4 Stage heart failure & IM1.5 Describe, discuss and differentiate the processes involved in R Vs L heart failure, systolic vs diastolic failure & IM1.6 Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations (SGL)	
					SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases (SGL)		
24/1/23	Tuesday	FM 4.9 Describe the medico - legal issues in relation to family violence, violation of human				PANDEMIC MODULE CM 3.3 Operational Research - Field work	PE20.10 Discuss the etiology, clinical features and management of Hemorrhagic disease of New born PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation) PE20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia (SGL)

24/1/23	Tuesday	Relation to family violence, violation of human rights, NHRC and doctors. (Lecture)			Operational Research, Field work, Surveillance (Reflective Writing)	OG22.2 Describe and discuss the entiology(with special emphasis on cardida t. vaginalis, bacterial vaginosis),characteristics,clinical diagnosis, investigation,genital hygiene, management of common causes and the syndromic management (SGL)
25/1/23	Wednesday	EN 4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Nasal Polyps (Lecture)			DR12.4 Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the treatment of eczema (Lecture)	DR18.2 Enumerate the cutaneous features of hypo/hyper-thyroidism (SGL)
26/1/23	Thursday	Republic Day				
27/1/23	Friday	PH1.58 Describe drugs used in Ocular disorders (Lecture)	CLINICAL POSTINGS	LUNCH	AS8.5 Describe the principles of pain management in the terminally ill (Lecture)	IM2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease & IM2.3 Discuss and describe the lipid cycle and the role of dyslipidemia in the pathogenesis of atherosclerosis (SGL)
28/1/23	Saturday	PE7.1 Awareness on the cultural beliefs and practices of breast feeding & PE7.2 Explain the physiology of lactation & PE7.3 Describe the composition and types of breast milk and discuss the differences between cow's milk and Human milk & PE7.4 Discuss the advantages of breast milk (Lecture)			Sports and ECA	CT1.12 Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing (SGL)
29/1/23	Sunday	Holiday				

30/1/23	Monday	OP8.1 - Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina (Lecture)	CLINICAL POSTINGS	LUNCH	RT4.6 Describe and discuss radiotherapy for benign disease (Lecture)	IM2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease & IM2.3 Discuss and describe the lipid cycle and the role of dyslipidemia in the pathogenesis of atherosclerosis (SGL)
31/1/23	Tuesday	FM 4.9 Describe the medico - legal issues in relation to family violence, violation of human rights, NHRC and doctors. (Lecture)			<p>PANDEMIC MODULE CM 3.3 Operational Research, Field work, Surveillance (Reflective Writing)</p>	<p>PE20.10 Discuss the etiology, clinical features and management of Hemorrhagic disease of New born PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation) PE20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia (SGL)</p>
						OG22.2 Describe and discuss the entiology(with special emphasis on cardida t. vaginalis, bacterial vaginosis),characteristics,clinical diagnosis, investigation,genital hygiene, management of common causes and the syndromic management (SGL)
01-02-23 to 10-02-23	Semester Examination					
11-02-23 to 24-02-23	Preparation Leave					
25-02-23 to 07-03-23	Pre-University Examination					
08-03-23 to 14-03-23	Preparation Leave					
15-03-23 to 31-03-23	University Exam
